Chartist Legacy Raymond Jack Boston, 1969 **Chartism and the Chartists in Manchester and Salford P.**

Pickering, 1995-09-27 In 1845 Frederick Engels wrote that Manchester is the seat of the most powerful unions the central point of Chartism the place which numbers the most Socialists There have been many local studies of the Chartist struggle for democratic political reform but there is no major study of the movement in the Manchester Salford conurbation its most important provincial centre This book brings an innovative approach to an exploration of aspects of the Chartist experience in the shock city of the industrial revolution **Chartism in the North Riding of Yorkshire and South Durham,**

1838-1848 R. P. Hastings, 2004 **The Chartist Experience** James Epstein, Dorothy Thompson, 1982 **Chartism, Commemoration and the Cult of the Radical Hero** Matthew Roberts, 2019-08-15 Chartism the British mass movement for democratic and social rights in the 1830s and 1840s was profoundly shaped by the radical tradition from which it emerged Yet little attention has been paid to how Chartists saw themselves in relation to this diverse radical tradition or to the ways in which they invented their own tradition Paine Cobbett and other founding fathers dead and alive were used and in some cases abused by Chartists in their own attempts to invent a radical tradition By drawing on new and exciting work in the fields of visual and material culture cultures of heroism memory and commemoration critical heritage studies and the history of political thought this book explores the complex cultural work that radical heroes were made to perform *The Oxford Handbook of Victorian Literary Culture* Juliet John, 2016-07-14 The Oxford Handbook of Victorian Literary Culture is a major contribution to the dynamic field of Victorian studies This collection of 37 original chapters by leading international Victorian scholars offers new approaches to familiar themes including science religion and gender and gives space to newer and emerging topics including old age fair play and economics Structured around three broad sections Ways of Being Identity and Ideology Ways of Understanding Knowledge and Belief and Ways of Communicating Print and Other Cultures the volume is sub divided into nine sub sections each with its own lead essay on subjectivity politics gender and sexuality place and race religion science material and mass culture aesthetics and visual culture and theatrical culture The collection like today s Victorian studies is thoroughly interdisciplinary and yet its substantial Introduction explores a concern which is evident both implicitly and explicitly in the volume s essays that is the nature and status of literary culture and the literary from the Victorian period to the present The diverse and wide ranging essays present original scholarship framed accessibly for a mixed readership of advanced undergraduates graduate students and established scholars **Defying the Law of the Land** Brian Casey, 2013-08-01 This history of Ireland is inextricably linked with our relationship with the land In this book based on extensive research and investigation the authors examine some of the key figures in Irish agrarian agitation and

change Looking at the Land League the Knights of the Plough the perception and reality of the Irish Landlords this is an important book which makes a significant contribution to our understanding of the nature of the land question in Irish history

Victorian Political Culture Angus Hawkins, 2015 Victorian Britain is often described as an age of dawning democracy and as an exemplar of the modern Liberal state yet a hereditary monarchy a hereditary House of Lords and an established Anglican Church survived as influential aspects of national public life with traditional elites assuming redefined roles After 1832 constitutional notions of mixed government gradually gave way to the orthodoxy of parliamentary government shaping the function and nature of political parties in Westminster and the constituencies as well as the relations between them Following the 1867-8 Reform Acts national political parties began to replace the premises of parliamentary government The subsequent emergence of a mass male electorate in the 1880s and 1890s prompted politicians to adopt new language and methods by which to appeal to voters while enduring public values associated with morality community and evocations of the past continued to shape Britain's distinctive political culture This gave a particularly conservative trajectory to the nation's entry into the twentieth century This study of British political culture from the late eighteenth to the early twentieth century examines the public values that informed perceptions of the constitution electoral activity party partisanship and political organization Its exploration of Victorian views of status power and authority as revealed in political language speeches and writing as well as theology literature and science shows how the development of moral communities rooted in readings of the past enabled politicians to manage far reaching change This presents a new overarching perspective on the constitutional and political transformations of the Victorian age

Chartist Lives Christopher Godfrey, 1987 **The Chartists** Malcolm Chase, 2015 This book explores some of the main channels and by ways in the history of Chartism a middle class movement in mid 19th century Britain that attempted to bring about political reform Considering the place of Chartism within the wider framework of Victorian politics this study also evaluates topics such as the impact of Canada's rebellions on Chartism Chartism's endurance in Wales beyond the 1839 Rising the role of children in campaigning and Chartism's impact on the mid Victorian ethos of self help and the workings of parliamentary democracy Written in an open accessible style this collection firmly located within Britain's tradition of writing history from below offers an unusually wide variety of stimulating perspectives on key issues in the history of what effectively was Britain's civil rights movement

Dr. John Taylor, Chartist W. Hamish Fraser, 2006 Chartism After 1848 Keith Flett, 2006 The development of independent working class radical education and politics in England from the year of revolutions 1848 to the passage of the 1870 Education Act is examined in this chronological analysis of the Chartist movement

The Oxford Encyclopedia of the Modern World Peter N. Stearns, 2008 This multivolume encyclopedia includes articles on countries regions and ethnic groups themes involving social history demography family life politics economics religion thought education science and technology and culture and events such as major wars

The Chartist Movement Mark Hovell, 1918 The People's Charter Stephen

Roberts,2003 The peopleAs charter was the most famous and important radical manifesto of 19th century Britain **The Luddites, and Other Essays** Lionel M. Munby,1971 Contested Sites Paul A. Pickering,Alex Tyrrell,2004 The second half of the nineteenth century witnessed a new phenomenon in public monuments and civic ornamentation Whereas in former times public statuary had customarily been reserved for warriors and statesmen kings and rulers of men a new trend was emerging for towns to commemorate their own citizens As the subjects immortalised in stone and bronze broadened beyond the traditional ruling classes to include radicals and reformers it necessitated a corresponding widening of the language and understanding of public statuary Contested Sites explores the role of these commemorations in radical public life in Britain Despite recent advances in the understanding of the importance of symbols in public discourse political monuments have received little attention from historians This is to be regretted for commemorations are statements of public identity and memory that have their politics they are embedded in complex class gender and power relations that determine what is remembered or forgotten Examining monuments plaques and tombstones commemorating a variety of popular movements and reforming individuals the contributions in Contested Sites reveal the relations that went into the making of public memory in modern Britain and its radical tradition Joseph Cowen and Popular Radicalism on Tyneside, 1829-1900 Joan Allen,2007 An indepth look at Joseph Cowen newspaper magnate radical activist and member of parliament for the Liberal party this compilation brings together ethnic and urban studies and considers the role of the press in building a radical power base During his political career Cowen drew upon a coalition of support from working class associations the Irish community and regional interest groups and this study of his life describes how he remarkably championed the cause of the underdog *Voices of the People* Robert Gaston Hall,2007 Exploring the development and decline of Chartism as a coherent political identity between 1830 and 1860 this study illustrates the creation of Chartist identity from the point of view of plebeian intellectuals and activists in Aston under Lyne and other militant localities of Greater Manchester and Lancashire
