Bernini and the Birth of Baroque Portrait Sculpture Andrea Bacchi, Catherine Hess, Jennifer Montagu, 2008-01-01 Gian Lorenzo Bernini was the greatest sculptor of the Baroque period and yet surprisingly there has never before been a major exhibition of his sculpture in North America Bernini and the Birth of Baroque Portrait Sculpture showcases portrait sculptures from all phases of the artist's long career from the very early Antonio Coppola of 1612 to Clement X of about 1676 one of his last completed works Bernini's portrait busts were masterpieces of technical virtuosity at the same time they revealed a new interest in psychological depth Bernini's ability to capture the essential character of his subjects was unmatched and had a profound influence on other leading sculptors of his day such as Alessandro Algardi Giuliano Finelli and Francesco Mochi Bernini and the Birth of Baroque Portrait Sculpture is a groundbreaking study that features drawings and paintings by Bernini and his contemporaries Together they demonstrate not only the range skill and acuity of these masters of Baroque portraiture but also the interrelationship of the arts in seventeenth century Rome **Paris Between Empires** Philip Mansel, 2003-04-05 In this social history of Europe's most famous city during its golden age Mansel tells the story of the political turbulence dynamic intrigue violence in the streets and the societal wars that took place in upper class salons 32 page photo insert Jacques-Louis David Philippe Bordes, 2007-01-01 A landmark publication that sheds new light on the work of Jacques Louis David the most celebrated artist of his time **Women, Collecting, and Cultures Beyond Europe** Arlene Leis, 2022-11-04 This book examines collecting around the world and how women have participated in and formed collections globally The edited volume builds on recent research and offers a wider lens through which to examine and challenge women's collecting histories Spanning from the seventeenth century to the twenty first although not organized chronologically the research herein extends beyond European geographies and across time periods it brings to light new research on how artificialia and naturalia were collected transported exchanged and or displayed beyond Europe Women Collecting and Cultures Beyond Europe considers collections as points of contact that forged transcultural connections and knowledge exchange Some authors focus mainly on collectors and what was collected while others consider taxonomies travel patterns of consumption migration markets and the after life of things In its broad and interdisciplinary approach this book amplifies women's voices and aims to position their collecting practices toward new transcultural directions including women's relation to distinct cultures customs and beliefs as well as exposing the challenges women faced when carving a place for themselves within global networks This study will be of interest to scholars working in collections and collecting conservation museum studies art history women's studies material and visual cultures Indigenous studies textile histories global studies history of science social and cultural histories More than One Picture Felix Thürlemann, 2019-11-26 This thought provoking and original book argues that hyperimages calculated displays of images on walls or pages have played a major role in the history of art In exhibitions illustrated art books and classrooms artworks or their photographic

reproductions are arranged as calculated ensembles that have their own importance In this volume Felix Th rlemann develops a theory of this type of image use arguing that with each new gathering of images an art object is reinterpreted These hyperimages have played a major role in the history of art since the seventeenth century and the main actors of the art world are all hyperimage creators In part because the hyperimage is not permanently available this interplay of images has been largely unexplored Through case studies organized within three groups of producers collectors and curators art historians and artists Th rlemann proposes a theory of the hyperimage explores the semiotic nature of this plural image use and discusses the arrangement and interpretation of such pictures in order to illuminate the phenomenon of Western image culture from the beginning of the seventeenth century until today His analysis of the ways in which images are assembled and associated provides a crucial context for the explosive present day deployment of images on digital devices Château de Groussay: Salle à manger, pavillon hollandais et premier étage ,1999 *Architectural Publications Index* ,1996 Revue française d'histoire du livre ,1996 Some issues contain the Actes de la Société des Bibliophiles de Guyenne Separately paged
