Chaucer and the Making of English Poetry, Volume 1 P. M. Kean, 2019-09-23 Originally published in 1972 This important work of Chaucerian scholarship deals with two aspects of the poet and his work his individual achievement and his place in history and demonstrates that in both these senses Chaucer is a maker of English poetry The author assesses the extent of Chaucer's debt to the English tradition She considers the development of his urbane manner as a new poetic technique and with reference to such poems as the Parlement of Foules and the House of Fame discusses new themes in the Love Vision She concludes with a detailed study of Chaucer's great debate on love Troilus and Criseyde

Chaucer's Poetry Geoffrey Chaucer, 1975 *Matter and Making in Early English Poetry* Taylor Cowdery, 2023 What is literature made from During the fourteenth fifteenth and sixteenth centuries this question preoccupied the English court poets who often claimed that their poems were not original creations but adaptations of pre existing materials Their word for these materials was matter while the term they used to describe their labor was making or the act of reworking this matter into a new but not entirely new form By tracing these ideas through the work of six major early poets this book offers a revisionist literary history of late medieval and early modern court poetry It reconstructs premodern theories of making and contrasts them with more modern theories of literary labor such as authorship It studies the textual historical and philosophical sources that the court tradition used for its matter Most of all it demonstrates that the early English court poets drew attention to their source materials as a literary tactic one that stressed the process by which a poem had been made

The Making of Chaucer's English Christopher Cannon, 1998 The Making of Chaucer's English undertakes a substantial reappraisal of the place Chaucer's English occupies in the history of the English language and the

language of English literature It attacks the widespread presumption that Chaucer invented literary English and argues instead that Chaucer's English is generally traditional It shows that Chaucer's linguistic innovation was as much performance as fact but it also traces the linguistic strategies that made and make the performance of originality so believable It also includes a valuable history of every word Chaucer uses The book also interrogates the theory and methodology of historicising languages so even as it explores how Chaucer's words matter it also questions why these particular words have acquired such importance for poets and scholars alike for 600 years **The House of Fame** Geoffrey Chaucer, 2015-09-28

The House of Fame Hous of Fame in the original spelling is a Middle English poem by Geoffrey Chaucer probably written between 1379 and 1380 making it one of his earlier works It was most likely written after *The Book of the Duchess* but its chronological relation to Chaucer's other early poems is uncertain *The House of Fame* is over 2 000 lines long in three books and takes the form of a dream vision composed in octosyllabic couplets Upon falling asleep the poet finds himself in a glass temple adorned with images of the famous and their deeds With an eagle as a guide he meditates on the nature of fame and the trustworthiness of recorded renown This allows Geoffrey to contemplate the role of the poet in reporting the lives of the famous and how much truth there is in what can be told The work begins with a proem in which Chaucer speculates on the nature and causes of dreams He claims that he will tell his audience about his wonderful dream in full Chaucer then writes an invocation to the god of sleep asking that none whether out of ignorance or spite misjudge the meaning of his dream The first book begins when on the night of the tenth of December Chaucer has a dream in which he is inside a temple made of glass filled with beautiful art and shows of wealth After seeing an image of Venus Vulcan and Cupid he deduces that it is a temple to Venus Chaucer explores the temple until he finds a brass tablet recounting the Aeneid Chaucer goes into much further detail during the story of Aeneas's betrayal of Dido after which he lists other women in Greek mythology who were betrayed by their lovers which lead to their deaths He gives examples of the stories of Demophon of Athens and Phyllis Achilles and Breseyda Paris and Aenone Jason and Hypsipyle and later Medea Hercules and Dyanira and finally Theseus and Ariadne A History of English Literature from Beowulf to 1926 William Vaughn Moody, Robert Morss Lovett, 1926
