what one should eat they are also wrestling with larger questions of race class immigration and gender As Bobrow Strain traces the story of bread from the first factory loaf to the latest gourmet pain au levain he shows how efforts to champion good food reflect dreams of a better society even as they reinforce stark social hierarchies The history of America's love hate relationship with white bread reveals a lot about contemporary efforts to change the way we eat Today the alternative food movement favors foods deemed ethical and environmentally friendly and fluffy industrial loaves are about as far from slow local and organic as you can get Still the early twentieth century belief that getting people to eat a certain food could restore the nation's decaying physical moral and social fabric will sound surprisingly familiar Given that open disdain for unhealthy eaters and discrimination on the basis of eating habits grow increasingly acceptable *White Bread* is a timely and important examination of what we talk about when we talk about food Cincinnati Magazine, 2006-03 Cincinnati Magazine taps into the DNA of the city exploring shopping dining living and culture and giving readers a ringside seat on the issues shaping the region *America's Top Restaurants 2002 Zagat Survey*, 2001-11 **Annual Report of the Minnesota State Agricultural Society for the Year ...** Minnesota State Agricultural Society, 1895 Books in Print, 1994 **Restaurant Biz is Show Biz!** Dave Steadman, 1991 What does it take to be successful in the restaurant business Not just restaurateurs are asking this question Millions of people dream of someday opening their own restaurant Dave Steadman interviewed 47 restaurateurs pundits to come up with for real answers Must reading for the pro interesting tidbits for all who would like to peek behind the scenes discover what really goes on Available from Baker Taylor Quality Books Inc **Home Lighting Ideas** Richard Wiles, Barry Milton, 1985 **Local Foods Meet Global Foodways** Benjamin Lawrance, Carolyn de la Peña, 2013-09-13 This book explores the intersection of food and foodways from global and local perspectives The collection contributes to interdisciplinary debates about the role and movement of commodities in the historical and contemporary world The expert contributions collectively address a fundamental tension in the emerging scholarly terrain of food studies namely theorizing the relationship between foodstuff production and cuisine patterns They explore a wide variety of topics including curry bread sugar coffee milk pulque Virginia ham fast food obesity and US ethnic restaurants *Local Foods Meet Global Foodways* considers movements in context and in doing so complicates the notions that food shapes culture as it crosses borders or that culture adapts foods to its neo local or global contexts By analysing the dynamics of contact between mobile foods and or people and the specific cultures of consumption they provoke these case studies reveal the process whereby local foods become global or global foods become local to be a dynamic co creative development jointly facilitated by humans and nature This volume explores a vast expanse of global regions such as North and Central America Europe China East Asia and the Pacific India sub Saharan Africa the Atlantic Ocean and the USSR Russia It includes a foreword by the eminent food scholar Carole Counihan and an afterword by noted theorist of cuisine Rachel Laudan and will be of great interest to students and researchers of history anthropology geography cultural studies and American studies This book is
