Biology of the Sauropod Dinosaurs Nichole Klein, Kristian Remes, Carole T. Gee, P. Martin Sander, 2011-04-22

Sauropods those huge plant eating dinosaurs possessed bodies that seem to defy every natural law What were these creatures like as living animals and how could they reach such uniquely gigantic sizes A dedicated group of researchers in Germany in disciplines ranging from engineering and materials science to animal nutrition and paleontology went in search of the answers to these questions Biology of the Sauropod Dinosaurs reports on the latest results from this seemingly disparate group of research fields and integrates them into a coherent theory regarding sauropod gigantism Covering nutrition physiology growth and skeletal structure and body plans this volume presents the most up to date knowledge about the biology of these enormous dinosaurs

3D Jens Schröter, 2014-01-30 There is a blind spot in recent accounts of the history theory and aesthetics of optical media namely the field of the three dimensional or trans plane image It has been widely used in the 20th century for very different practices military scientific and medical visualization precisely because it can provide more spatial information And now in the 21st century television and film are employing the method even more Appearing for the first time in English Jens Schroeter s comprehensive study of the aesthetics of the 3D image is a major scholarly addition to this evolving field Citing case studies from the history of both technology and the arts this wide ranging and authoritative book charts the development in the theory and practice of three dimensional images Discussing and analyzing the transformation of the socio cultural and technological milieu Schroeter has produced a work of scholarship that combines impressive historical scope with contemporary theoretical arguments
