Blanchard,Simon Shen,2012-07-10 Since the end of the Cold War the new Chinese leadership generation has had to promulgate new guiding principles for handling global diplomacy which acknowledges China's new position Given the dramatic changes in the international system and its domestic economic success for the growing China's rise idea on the global stage China in the 21st century faces a mixture of old and new challenges including terrorism hegemonism and authoritarianism While Deng Xiaoping combined Taoism an ancient Chinese philosophy into Taoist diplomacy in response to the hostile international position after the Tiananmen Incident China's foreign policy keeps changing and the multidimensional diplomacy adopted by China can be seen as a consistent theme in Chinese foreign policy in the 21st century Multidimensional Diplomacy of Contemporary China attempts to examine the origins guiding principles and sequential outcomes of China's multidimensional diplomacy in the 21st century working under the flag of peaceful development harmonious international order and global responsibility The contributions are grouped into three sections The first discusses the theoretical foundations of multidimensional diplomacy The second section turns the analytical focus to China's immediate neighbors in East Asia and at last the book will go beyond the immediate neighborhood of China to the global community These essays explore China's dealings with the countries of Africa the Gulf and the South Pacific and provide other in depth analyses on China's foreign policy towards Pakistan Russia and Japan This book seeks to significantly shape the knowledge and thinking about China's global interactions in the 21st century      **Contemporary China's Diplomacy** Xing Qu,Longbiao Zhong,2017-10-19 With the second largest economy and rapidly growing military strength China is now an emerging regional and global super power which makes it confronted with a sudden increase in opportunities pressures and conflicts in terms of international issues This book gives a comprehensive and systematic introduction to the development of China's diplomatic strategies since 1980s which have been changed approximately every ten years to cope with the complicated and changing international situations In 1980s China took non alignment to create a solid external environment for the reform and opening up which had just been initiated With the collapse of the Soviet Union upheaval in Eastern Europe and the end of the Cold War in 1990s China adopted the principle of keeping a low profile and making some contributions to adhere to the road of socialism while avoid making enemies Nowadays due to the continuous enhancement of national power and international status China replaces making some contributions with making positive actions to get more actively involved in international affairs This book will be a valuable reference for studies in China's diplomacy and international relations Readers interested in contemporary China will also be attracted by it

**Contemporary China and Its Foreign Policy** Fuchang Yang,2003 12      **Study On International Politics In Contemporary China** Yuyan Zhang,2020-07-14 China's guiding principle for foreign relations and its focus on states and

regions has shifted a lot from the first 30 years of the founding of the People's Republic of China PRC in 1949 to 1978 and beyond after reform and opening up. However, PRC's diplomatic practice has been continuous whether it was participation in the Korean War, breaking up with the former Soviet Union after a honeymoon period, China's self-defense war over Sino-Indian border, participation in the Vietnam War, breakthrough in the Sino-US relation, or PRC's self-defense war over the Sino-Vietnamese border. These historical events brought the need for theoretical study in International Politics (IP). The development of China's IP research was slow and filled with complications, but it signified a breakthrough from scratch. This book has filled the gap by depicting a complete scroll of China's IP research in over 60 years since 1949. This book has followed two principles: one is according to the classification of the IP discipline, and the other is to recommend adaptations according to China's actual conditions.

Rethinking Think Tanks in Contemporary China Silvia Menegazzi, 2017-08-01

This book analyzes how Chinese think tanks have become essential actors in today's Chinese foreign policy and diplomatic practices. By providing an in-depth analysis of their roles, functions and transformation in the last decade, this study explains how they differ from their Western counterparts and how they have developed during Hu Jintao's and Xi Jinping's mandates. Think tanks are often thought to only be able to gain access to political processes within democratic contexts. This book suggests that even in the more ambiguous Chinese political environment, think tanks remain essential actors where ideas, discourses and beliefs about foreign policy and diplomacy are generated, framed and discussed vis-à-vis China's ascent role in international affairs and global governance.

**The Making of China's Foreign Policy in the 21st century** Suisheng Zhao, 2018-02-02

This book is a study of the making of foreign policy of China, a rising power in the 21st century. It examines three sets of driving forces behind China's foreign policy making. One is historical sources including the selective memories and reconstruction of the glorious empire with an ethnocentric world outlook and the century of humiliation at the hands of foreign imperialist powers. The second set is domestic institutions and players, particularly the proliferation of new party and government institutions and players such as the national security commission, foreign policy think tanks, media and local governments. The third set is Chinese perception of power relations, particularly their position in the international system and their position relations with major powers. This book consists of articles from the *Journal of Contemporary China*.

**Redefining Nationalism in Modern China** S. Shen, 2007-11-13

Why do the Chinese sometimes speak out against the U.S. and yet at other times remain silent? This book uses a variety of previously untapped sources, including a range of news sources within China itself, weblogs and interviews with prominent figures, to make a powerful new argument about the

causes and consequences of the new Chinese nationalism      *Critical Decade, A: China's Foreign Policy (2008-2018)* Zhiqun Zhu, 2019-07-09 China emerged as a major economic diplomatic and military power during the critical decade from 2008 to 2018 As a result China's foreign policy has become more active and dynamic This book provides a unique perspective to understand Chinese foreign policy during this decade by examining continuities and changes in both internal and external factors that have shaped China's development The book focuses on key challenges in China's diplomacy such as US China relations the Korean Peninsula Taiwan Japan India Chinese investment overseas the Belt and Road Initiative global and regional cooperation soft power etc It also includes an extensive annotated bibliography of major recent publications on various aspects of Chinese foreign policy This is the first scholarly book that studies the evolution and key challenges of China's foreign relations during the critical decade 2008-2018 when China grew into a crucial sometimes assertive power in international affairs      **Creative Involvement** Yizhou Wang, 2017-05-18 With the enhancement of national strength China's diplomacy has leapt onto a new high ground basically obtaining the status of a world power Meanwhile it has also received a large amount of right and wrong mixed criticism and suggestions from different sides in the face of a sudden increase in opportunities pressures and conflicts The creative involvement in this book is exactly proposed for the future of China's diplomacy In this book the author first defines the concept creative involvement Different from diplomatic theories in the traditional senses creative involvement is a kind of diplomatic thinking which encourages more active participation in international affairs and advocates creative solutions Then the author makes case studies on some events and people which have been of typical significance in China's diplomatic practices since the end of the Cold War expounding their innovations and limitations In the third part the author turns to various supportive propositions ideas and theories concerning creative involvement and explains how they are applied to China's future diplomatic practice Lastly the author tries to set a number of scenarios discussing the possible entry points for creative involvement Combining innovative theoretical idea with practical investigation this book will not only contribute to contemporary China diplomatic studies but also appeal to scholars and students of international relations studies      *Oriental Studies in Japan: Contemporary China (Since 1949)*, 1975      *China's Multilateral Co-operation in Asia and the Pacific* Chien-peng Chung, 2010-06-24 Explores the meaning scope and repercussion in the drive that a rising China has for institutionalizing multilateral cooperative processes in the Asia Pacific region the extent to which its actions are motivated by concerns of politics economics or security and the obstacles it faces for so doing      Modern China's Foreign Policy Werner Levi, 1953-01-01 Modern China's Foreign Policy was first published in 1953 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions What are China's objectives in world affairs and what course will she pursue to achieve her goals These are the questions of vital concern to the Western democracies questions that can be approached intelligently only from a knowledge of how China's foreign policy has developed In this illuminating

and carefully documented book Professor Levi analyzes China's attitudes and actions toward the rest of the world and clarifies many motivations behind her behavior past and present. He traces the development of her foreign relations from the beginning of the modern era of Chinese contacts with Westerners a little more than hundred years ago. The emphasis however is on the twentieth century and particularly on the years since the peace settlements of World War I. The complex balance of relationships between China and the United States on the one hand and China and the Soviet Union on the other since the end of World War II is discussed in detail. Communist doctrine notwithstanding its apparent rigidity is shown to be a conveniently adjustable tool capable of adaptation to the needs and strategies of present day China. An integral part of the account is the attempt to single out and interpret the internal forces cultural social and economic that have influenced and shaped China's external policies. Thus it is shown that the determinants of China's foreign policy have often been pressures and complexities within the country and that an understanding of the Chinese people and their traditions is essential to nations in their dealings with China.

**China's Omnidirectional Peripheral Diplomacy** Jianwei Wang, Tiang Boon Hoo, 2019-04-05 In view of its size and vast land and sea boundaries that it shares with its neighbours China has always regarded its peripheral policy as a crucial aspect of its national security. Such a mentality conforms to Chinese leaders' core belief that a stable external environment in particular its immediate region remains the sine qua non for the continued and sustained rejuvenation of their nation. This book examines China's evolving strategies towards its surrounding peripheries. It is the first book to examine in detail President Xi Jinping's steering of China's peripheral diplomacy. It argues that China pursues an ambitious omnidirectional regional diplomacy that emphasizes the entire periphery region and not just specific peripheries. According to this book Chinese regional policy cannot be properly and adequately understood without taking into account its full breadth substance and scope. Featuring chapters that explore China's evolving policy in Northeast Asia Southeast Asia South Asia and Central Asia and addressing new developments under Xi this book fleshes out the intricacies of how China has been managing its peripheral relationships in Asia under new circumstances and new leadership.

**Chinese Vs. Western Perspectives** Jinghao Zhou, 2014 China is on the rise in the globalized world. The relationship between China and the United States has become the most important global issue in the twenty first century. It is urgent to understand what is happening in China and where China is heading. However there are many misconceptions about China in the West which affect Westerners' ability to objectively understand China and ultimately influence the making of foreign policy toward China.

The author attempts to challenge the misconceptions coming from both Western societies and China and offer an integrated picture of contemporary China through systematically examining the major aspects of contemporary Chinese society and culture with the most recent data and presents convincing arguments in eighteen chapters for spurring mutual understanding between China and the West. The author intends this book to be an interdisciplinary and comprehensive guide to China for a general audience and it covers a wide variety of topics including history, family, population, Chinese women, economy, environmental issues, politics, religion, media, U S China relations and other subjects. This book demonstrates the author's extensive research and thoughtful examination of many sides of controversial issues related to China with a nice balance of Western and Chinese scholarship. This is one of the few that are authored by scholars who originate from China and have their professional career in the United States but it is distinctive from the rest of studies on this subject in that the author is committed to examining today's China from Chinese as well as Western perspectives. This is not only a scholarly book but also is suitable for general classes on China.
