Dire Mastery:

Dire Mastery François Roustang, 1986 Noted French psychoanalyst François Roustang examines both historical psychoanalytic relationships and associations in France today to show the destructive power of discipleship and how it related to the new theory of psychosis This book is a paperback reprint of the classic text originally published in 1982

Dire Mastery (Un Destin Si Funeste, Engl.). Discipleship from Freud to Lacan François Roustang, 1982 The Practice of Value John Frow, 2013 In recent years the disciplines of literary studies and cultural studies have engaged in occasional hostilities but very rarely in productive engagement with each other's methodologies Yet each offers a set of rich resources for the other in a period of disciplinary crisis across the Humanities The essays collected here working at the point of intersection of these two fields are centrally concerned with conflicts of value the aesthetic value that is ascribed to texts the economic value that accrues to intellectual property the processes of social valuation that turn waste into worth and back again the structures of valued knowledge that shape both the disciplines of knowledge and everyday life and the political struggles over social and cultural difference that give rise at their most intense to the desolation of communities and the destruction of cultures Italian Literature in North America Canadian Society for Italian Studies, 1990 *The Wolf Man's Burden* Lawrence Johnson, 2001 The Wolf Man was Sigmund Freud's most famous patient a man whose enigmatic childhood dream of being gazed at by wolves outside his bedroom window bedeviled the founding practitioners of psychoanalysis More than simply a rich source of imagery and meaning though the Wolf Man case might be interpreted as the primal scene of psychoanalysis itself Lawrence Johnson regards the creation of the psychoanalytic case study as the writing of two lives those of the analysand and the analyst so Freud's own biography and subjective viewpoint could hardly fail to bear a direct influence on the institution of psychoanalysis When Freud met the patient known as the Wolf Man Johnson maintains psychoanalysis was at an impasse because of Freud's inability to work through repressed material from his own childhood Freud overcame this impasse through a countertransference that cast his patient in the role of a rival for the control of psychoanalysis his means for vanquishing him set the terms for Freud's legacy to psychoanalysis Johnson offers a rigorous methodological framework for discussing the relationship between psychoanalytic writing and the lives of those who engage in it He fruitfully extends the work of Nicholas Abraham Maria Torok and Jacques Derrida into the realm of Freud's own life The result is both sophisticated psychobiography and psychoanalytic theory grounded firmly in historical lives New Feminist Discourses Isobel Armstrong, 2012-09-10 This collection of new feminist essays represents the work of young critics researching and teaching in British Universities Aiming to set the agenda for feminist criticism in the nineties the essays debate themes crucial to the development of feminist thought among them the problems of gendered knowledge and the implications of accounts of gendered language cultural restraints on the representation of sexuality women's agency cultural and political change a feminist aesthetics and new readings of race and class This variety is given coherence by a unity of

aim to forge new feminist discourses by addressing conceptual and cultural questions central to problems of gender and sexual difference The topics of discussion range from matrilinear thought to seventeenth century prophecy the poetry of Amelia Lanyer to Julia Margaret Cameron s photographs from Dorothy Richardson and Virginia Woolf to eighteenth century colonial painting of the South Pacific from medieval romance to feminist epistemology The essays utilise and question the disciplines of literary criticism art history photography psychoanalysis Marxist history and post structuralist theory

The Limits of Theory Thomas M. Kavanagh,1989 This collection of eight essays by some of today s most innovative and seminal thinkers argues that there is a limit beyond which the enterprise of literary theory becomes something different from what it presents itself as being These writers ask in different ways how theory functions and how it might preserve within its own practices and effects the freedom of reading the presence of the real and the challenge of a voice speaking outside the rhetorics of mastery

Femmes Fatales Mary Ann Doane,2013-06-17 In this work of feminist film criticism Mary Ann Doane examines questions of sexual difference and knowledge in cinematic theoretical and psychoanalytic discourses Femmes Fatales examines Freud the female spectator the meaning of the close up and the nature of stardom Doane s analyses of such figures as Pabst s Lulu and Rita Hayworth s Gilda trace the thematics and mechanics of masks masquerade and veiling with specific attention to the form and technology of the cinema Working through and against the intellectual frameworks of post structuralist and psychoanalytic theory Doane interrogates cinematic and theoretical claims to truth about women which rely on judgements about vision and its stability or instability Reflecting the shift in conceptual priorities within feminist film theory over the last decade Femmes Fatales addresses debates over female spectatorship essentialism and anti essentialism the tensions between psychoanalysis and history and the relations between racial and sexual difference Doane s nuanced and original readings of the femme fatale in cinema illustrate confrontations between feminism film theory and psychoanalysis This book should be of interest to students and lecturers in women s studies communications studies and film theory

Encountering Freud Paul Roazen,2017-09-08 In this volume Paul Roazen examines different national responses to Freud and the beginnings of psychoanalysis He examines Freud s work in the contexts of law society and class as well as other forms of psychology Encountering Freud includes a brilliant essay on Freud and the question of psychoanalysis contribution to radical thought in contrast to the conservative tradition Roazen takes up the extravagant claims of Marcuse and Reich and sees the risks of then overglamorization of the beginnings of psychoanalysis as a profession Roazen views the legacies of Harry Stack Sullivan Helene Deutsch and Erik H Erikson as less rich because their work conformed to the social status quo He sees Freud s inability to avoid an ambiguous outcome as a lack of concern with normality and a refusal to own up to the wide variety of psychological solutions he found both therapeutically tolerable and humanly desirable Roazen concludes with a series of explorations on the dichotomies Freud left behind clinical discoveries versus philosophical standpoints the relationship of normality to nihilism and a defense of a therapeutic setting based on trained specialists versus

a therapeutic approach encouraging self expression This is a volume that utilizes a sharp focus on Freud and his followers and dissenters to explore the question of political psychology at one end and psych history at the other end of analysis

Psychoanalysis and Cinema E. Ann Kaplan, 2013-02-01 These fifteen carefully chosen essays by well known scholars demonstrate the vitality and variety of psychoanalytic film criticism as well as the crucial role feminist theory has played in its development Among the films discussed are *Duel in the Sun* *The Best Years of Our Lives* *Three Faces of Eve* *Tender is the Night* *Pandora's Box* *Secrets of the Soul* and the works of Jacques Tourneur director of *The Cat People* and other features

A Life's Morning George Gissing, 1888 *The Cornhill Magazine* William Makepeace Thackeray, 1888 **October**, 1984 *Perversion and Utopia* Joel Whitebook, 1996-10-31 In this sweeping challenge to the postmodern critiques of psychoanalysis Joel Whitebook argues for a reintegration of Freud's uncompromising investigation of the unconscious with the political and philosophical insights of critical theory *Perversion and Utopia* follows in the tradition of Herbert Marcuse's *Eros and Civilization* and Paul Ricoeur's *Freud and Philosophy* It expands on these books however because of the author's remarkable grasp not only of psychoanalytic studies but also of the contemporary critical climate Whitebook a philosopher and a psychoanalyst writes with equal facility on both Habermas and Freud A central thesis of *Perversion and Utopia* is that there is an essential affinity between the utopian impulse and the perverse impulse in that both reflect a desire to bypass the reality principle that Freud claimed to define the human condition The book explores the positive and negative aspects of the relationship between these impulses which are ubiquitous features of human life and the requirements of civilized social existence Whitebook steers a course between orthodox psychoanalytic conservatism which seeks simply to repress the perverse utopian impulse in the name of social continuity and cohesion and those forms of Freudian Marxism postmodernism and psychoanalytic feminism that advocate its direct and full expression in the name of emancipation While he demonstrates the limitations of the current textual approaches to Freud especially those influenced by Lacan Whitebook also enlists the lessons of psychoanalysis to counteract the excessive rationalism of the Habermasian brand of critical theory thus making a substantial contribution to current discussions within critical theory itself His analysis and interpretation of perversion narcissism sublimation and ego bring new insight to these central and thorny issues in Freud and his discussions of Adorno Marcuse Castoriadis Habermas Ricoeur Lacan and others are equally penetrating *The Cornhill Magazine*, 1888

Psychoanalysis and the Sciences André Haynal, 1993 *Telos*, 1985 **Psyche, Self and Soul** Gerald Gargiulo, 2004-09-24 *Psyche Self and Soul* is a many faceted exploration of the relationship of psychotherapy and spirituality Introducing the term an everyday transcendence Gargiulo studies the silent alone space of each individual and relates a psychoanalytic exploration to a spiritual journey Calling on the thought of philosophers theologians scientists and analysts the text gives a new framework for understanding psychoanalysis and spirituality grounded in the here and now as well as a psychoanalysis that respects mystery justice and civility The clinical cases demonstrate how each patient's task must be

understood as individualized and consequently how the analyst therapist must creatively adapt clinical technique D W Winnicott s thoughts are applied throughout the text and are given a comprehensive summary in the final chapters

Monstrism ,2002 **The Future of Psychoanalytic Psychotherapy** Lucy King,Rosemary Randall,2003-06-02
