

Structuralist Criticism

- ✦ Structuralism was first developed in Anthropology (**Claude Lévi-Strauss**), literary and cultural studies (**Roman Jakobson**, **Roland Barthes**, and **Gérard Genette**), psychoanalysis, and intellectual history. Structuralism enjoyed popularity in the **1950s** and **1960s** in both European and American literary theory and criticism.
- ✦ Structuralism which emerged as a trend in the 1950s challenged **New Criticism** and rejected Sartre's **existentialism** and its notion of radical human freedom; **it focused instead on how human behaviour is determined by cultural, social and psychological structures**. **Roland Barthes** and **Jacques Derrida** explored the possibilities of applying structuralist principles to literature. **Jacques Lacan** studied psychology in the light of structuralism, blending Freud and Saussure.

Directions for Criticism Murray Krieger, L. S. Dembo, 1977-01-01 *Textual Strategies* Josue V. Harari, 2019-06-30 A stellar cast of fifteen contributors seeks to show the direction in which continental and continentally oriented American literary criticism has evolved in recent years Nine of the essays are published here for the first time five of the remaining six were translated by the editor from the French only one has previously appeared in English The essays make available some of the most important and most representative work that has been done in the wake of structuralism Among the topics treated are the relationships between semiology and literature anthropology and literature and psychoanalysis and literature modern American poetics algebraic models as epistemological operators the modes of production of a poem Flaubert's view of history and poetic language Professor Harari has arranged the essays to move from the general to the particular and from the abstract to the concrete In an informative and ambitious introduction he discusses each essay in relation to the whole and explains the interrelationships among the various theories and strategies that are represented in the anthology A book meant for the specialist as well as the novice for the teacher of literature and criticism as well as the student *Textual Strategies* is a brilliant introduction to post structuralist critical theories and practices **Methodology of the Oppressed** Chela Sandoval, 2013-11-30 In a work with far reaching implications Chela Sandoval does no less than revise the genealogy of theory over the past thirty years inserting what she terms U S Third World feminism into the narrative in a way that thoroughly alters our perspective on contemporary culture and subjectivity What Sandoval has identified is a language a rhetoric of resistance to postmodern cultural conditions U S liberation movements of the post World War II era generated specific modes of oppositional consciousness Out of these emerged a new activity of consciousness and language Sandoval calls the methodology of the oppressed This methodology born of the strains of the cultural and identity struggles that currently mark global exchange holds out the possibility of a new historical moment a new citizen subject and a new form of alliance consciousness and politics Utilizing semiotics and U S Third World feminist criticism Sandoval demonstrates how this methodology mobilizes love as a category of critical analysis Rendering this approach in all its specifics *Methodology of the Oppressed* gives rise to an alternative mode of criticism opening new perspectives on any theoretical literary aesthetic social movement or psychic expression **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1979 **Defining Literary Criticism** Carol Atherton, 2005-09-27 Outlining the controversies that have surrounded the academic discipline of English Literature since its institutionalization in the late nineteenth century this important book draws on a range of archival sources It addresses issues that are central to the identity of academic English how the subject came into existence and what makes it a specialist discipline of knowledge in a manner that illuminates many of the crises that have affected the development of modern English studies Atherton also addresses contemporary arguments about the teaching of literary criticism including an examination of the reforms to A Level literature *A Reopening of Closure* Murray

Krieger, 1989 Surveying the expanding conflict in Europe during one of his famous fireside chats in 1940 President Franklin Roosevelt ominously warned that we know of other methods new methods of attack The Trojan horse The fifth column that betrays a nation unprepared for treachery Spies saboteurs and traitors are the actors in this new strategy Having identified a new type of war a shadow war being perpetrated by Hitler s Germany FDR decided to fight fire with fire authorizing the formation of the Office of Strategic Services OSS to organize and oversee covert operations Based on an extensive analysis of OSS records including the vast trove of records released by the CIA in the 1980s and 90s as well as a new set of interviews with OSS veterans conducted by the author and a team of American scholars from 1995 to 1997 *The Shadow War Against Hitler* is the full story of America s far flung secret intelligence apparatus during World War II In addition to its responsibilities generating processing and interpreting intelligence information the OSS orchestrated all manner of dark operations including extending feelers to anti Hitler elements infiltrating spies and sabotage agents behind enemy lines and implementing propaganda programs Planned and directed from Washington the anti Hitler campaign was largely conducted in Europe especially through the OSS s foreign outposts in Bern and London A fascinating cast of characters made the OSS run William J Donovan one of the most decorated individuals in the American military who became the driving force behind the OSS s genesis Allen Dulles the future CIA chief who ran the Bern office which he called the big window onto the fascist world a veritable pantheon of Ivy League academics who were recruited to work for the intelligence services and not least Roosevelt himself A major contribution of the book is the story of how FDR employed Hitler s former propaganda chief Ernst Putzi Hanfstengl as a private spy More than a record of dramatic incidents and daring personalities this book adds significantly to our understanding of how the United States fought World War II It demonstrates that the extent and limitations of secret intelligence information shaped not only the conduct of the war but also the face of the world that emerged from the shadows

Black Literature and Humanism in Latin America Richard L. Jackson, 2008-08-01 In *Black Literature and Humanism in Latin America* Richard L Jackson explores literary Americanism through writings of black Hispanic authors such as Carlos Guillermo Wilson Quince Duncan and Nelson Estupi n Bass that in many ways provide a microcosm for the larger literature Jackson traces the roots of Afro Hispanic literature from the early twentieth century Afrocriollo movement the Harlem Renaissance of Latin America to the fiction and criticism of black Latin Americans today Black humanism arose from Afro Hispanics self discovery of their own humanity and the realization that over the years they had become not only defenders of threatened cultures but also symbolic guardians of humanity This humanist tradition had enabled writers such as Manuel Zapata Olivella to write of a Latin America from below the slave ship

deck and from inside the mind of Africa Though many writers have adopted black literary models in their quest for a poetry of sources of fundamental human values Jackson demonstrates that literature about blacks by blacks themselves is clearly separate from yet instrumental to these other works Relating the vision of Latin American blacks not only to other Latin American writers but also to North American literary critics such as Eugene Goodheart and John Gardner Jackson stresses the universal power of resisting oppression and injustice through the language of humanism *The Bible and Modern Literary Criticism* Mark Powell, Cecile G. Gray, 1992-02-28 The heart of the bibliography is a comprehensive listing of literary and critical studies of biblical texts followed by a discussion of works that evaluate the reception of modern literary criticism in the world of biblical studies **Literary Criticism** Charles E. Bressler, 1999 The second edition of *Literary Criticism* by Charles E. Bressler is designed to help readers make conscious informed and intelligent choices concerning literary interpretation By explaining the historical development and theoretical positions of eleven schools of criticism author Charles Bressler reveals the richness of literary texts along with the various interpretative approaches that will lead to a fuller appreciation and understanding of such texts **Crossing Borders** Robert C. Holub, 1992 *Crossing Borders* explores the question of what happens to theory when it literally crosses borders from one culture to another The author investigates the histories of reception theory poststructuralism and deconstruction in postwar Germany and the United States He looks at how imported theories assume a place in the political discourse of a country and how indigenous intellectual traditions and prejudices affect modify or even distort foreign theories **Guide to American Literature** Valmai Kirkham Fenster, 1983 *Studies in Eighteenth-century Culture* Harry C. Payne, 1981 *Institutions of the English Novel from Defoe to Scott* Homer Obed Brown, 1997 After analyzing the figurative and thematic uses of private letters and social gossip in the constitution of the novel Brown explores what was instituted in and by the fictions of Defoe Fielding Sterne and Scott with extensive discussion of the way Scott's work played a pivotal role in the novel's rise to institutional status *Michigan Quarterly Review*, 1978 **Antæus**, 1978 *Gradiva*, 1976 **Clio**, 1975 *Ariel*, 1979 *Women & Literature*, 1977 The annual bibliography of women and literature appears in the fall issue of each volume 1975 spring 1976
