Disarmament and Development Barry B. Hughes, Stuart A. Bremer, 1988 Disarmament and Development Stuart A. Bremer, Barry B. Hughes, Barry Hughes, 1990 **Current Bibliographical Information** Dag Hammarskjöld Library, 1991 Disarmament and development: a design for the future? Barry Hughes, Stuart A. Bremer, 1988 *Bibliographic Index*, 1991 *PAIS Bulletin*, 1990 *FUTURES THE JOURNAL OF FORECASTING AND PLANNING VOLUME 8 NUMBER 1 FEBRUARY 1976*, 1976 *Dual Axis Radiographic Hydrodynamic Test (DARHT) Facility, Los Alamos National Laboratory (LANL), Los Alamos County, Santa Fe County*, 1995 **Sustainable Development and Peace** Romina Gurashi, 2023-04-21 This book explores the growing attention that sociology has started to give to environmental issues in terms of peace and social justice With a focus on sociological theory and its development it reconstructs the long journey made by the social sciences towards the reconstruction in a single theoretical paradigm of the problems associated with the implementation of conditions of peace and sustainability Beginning from the premise that environmental issues are never purely environmental but entail political economic and social implications Sustainable Development and Peace offers an understanding of where we are heading and how reflecting on present challenges and possible directions for the future It will therefore appeal to scholars of sociology social theory development studies politics and environmental studies *Human Development Report 1994* United Nations Development Programme, 1994 Expounds a new concept of human security one that focuses on the security of people in their homes in their jobs in their communities and in their environment **Post-2015 Development Goals** Great Britain: Parliament: House of Commons: International Development Committee, 2013-01-22 The Millennium Development Goals MDGs were launched at the UN General Assembly in 2001 and have had great influence on the field of international development The Goals cover areas such as extreme poverty i.e. living on less than US 1.25 per day primary education child and maternal mortality and HIV AIDS each Goal is supported by underlying targets most of which have a target date of 2015 In July 2012 the UN Secretary General established a High level Panel tasked with making recommendations as to what should replace the MDGs after 2015 Under the MDGs some of the targets are phrased in universal terms but others are relative on extreme poverty for example the target is not to eliminate it but to reduce it by half The Prime Minister has argued that the post 2015 framework should aim for the elimination of extreme poverty and the Committee agrees Another key debate is whether the post 2015 framework should incorporate issues of environmental sustainability again supported by the Committee The MDGs undoubtedly had great resonance around the world The simplicity and measurability of the MDGs and the level of responsibility countries have taken for meeting them have been crucial factors in their success For those involved in developing the post 2015 framework the most critical task is to ensure that these strengths are retained **Getting to Nuclear Zero in Northeast Asia** Gregory Kulacki, Keiko Nakamura, Jae-Jung Suh, Tatsujiro Suzuki, 2025-06-27 This book presents realistic alternatives to security policies based on

nuclear weapons for the Northeast Asian region Northeast Asian governments and populations feel less secure than ever and the governments of the USA Russia China and North Korea are all expending considerable resources on increasing their nuclear arsenals This book presents realistic alternatives to security policies dependent on threats to use nuclear weapons and demonstrations of the resolve to use them in a war Those alternatives are grounded in the well established concept of common security The long term goal of these alternatives is the establishment of a nuclear weapon free zone in Northeast Asia This book demonstrates that lessons learned during the creation of existing nuclear weapon free zones can be successfully adapted using the proposed alternatives to nuclear threats to the considerably more challenging circumstances that exist in contemporary Northeast Asia More importantly it makes the case that the mere process of pursuing this objective even if the goal is not realized for many decades would help facilitate regional risk reduction measures and global nuclear arms control measures that could lead in the long term to the general and complete disarmament promised by the Nuclear Nonproliferation Treaty NPT and the Treaty on the Prohibition of Nuclear Weapons TPNW of 2021 This book will be of interest to students of nuclear proliferation Asian security foreign policy and International Relations
