Troon, 2024-06-13 *Cinematic Encounters with Disaster* takes Hollywood's disaster movies and their codified versions of natural disaster post apocalyptic survival and extra terrestrial threat as the starting point for an analytical trajectory that works toward new understandings of how cinema shapes and informs our conceptions of disaster and catastrophe It examines a range of films from distinct regional and industrial contexts Hollywood indie movies different kinds of documentaries from the US and elsewhere and auteurist realist cinema from Europe and Asia Moving across and beyond critical and industrial categories that often inform thinking about cinema this book contends that different approaches to film style can push us to imagine disaster in distinct ways with distinct ethical connotations Framed by contemporary concerns around the global climate crisis and the advent of the Anthropocene questions about how films can best offer responses to historical exigency guide the book's explorations of spectacular 2010s blockbusters like *Gravity* 2013 and *San Andreas* 2015 environmental documentaries including the
