Emergency Preparedness for Mobilehome Communities - the WORKBOOK Virginia S. Nicols, 2019-09-03

Emergency Preparedness for Mobilehome Communities THE WORKBOOK is not just a response to a public need but a drive to make emergency preparedness a community reality We all know it s important to stock up on water in the face of catastrophic events like earthquakes wildfires and hurricanes But what are your options in a mobile home What medicines should you store and what is the best way to do it Do you buy one or more of those pre made survival packs or build one yourself What kind of lighting will you need during a power outage or a major emergency These are just a few of the dozens and dozens of choices you and your neighbors will be making in forming a community response team for your neighborhood Living in a mobile home community definitely has its advantages Neighbors are close and can readily lend a hand But natural disasters have taken a disproportionate toll on mobile home parks pointing to the necessity of an organized population to cope with the challenges Fortunately most parks offer a perfect place for building a strong community preparedness culture But it does take time and effort THE WORKBOOK is aimed at SIMPLIFYING that process

Emergency Preparedness for Mobilehome Communities was my first book on the topic Based on my years of planning experience with emergency preparedness and disaster recovery challenges it covers many aspects of preparedness from 1 personal readiness to 2 getting more neighbors involved to 3 actually putting together a written neighborhood plan Appendices of the book cover threats recruitment ideas legal cautions training options and emergency communications Throughout I ve listed additional proven resources While the book has been well received readers have admitted to me that there was still too much for them to get their arms around So I wrote a companion THE WORKBOOK It follows the same content flow so you ll want to keep the book close at hand to refer to But THE WORKBOOK is truly a workbook as you d expect It has simple questions and spaces for you to write your answers Step by step you ll be taking action Answering questions to help set personal priorities Researching what planning has already been done Making sure park management is on board Finding and inviting interested neighbors Getting training for yourself and your team Learning about park infrastructure utilities etc Picking which disasters to plan for Meeting the First Responders that serve your community Planning and holding meetings for all your park neighbors The Q A format of THE WORKBOOK moves you and your group forward by simple steps one after another on your own time frame Many of the questions make it easy to engage others in your family household or group If you haven t been able to make the progress you d like on your own readiness or if you want to help your whole mobilehome park community get better prepared get

Emergency Preparedness for Mobilehome Communities and its companion THE WORKBOOK Everything you need to know is in these step by step guides It s not only an important tool in building your personal survival plan it actually turns the process into an enjoyable experience Each page you complete will increase your self confidence and peace of mind

Emergency Preparedness for Homeowner Communities Virginia Nicols, 2018-04-17 As a homeowner you have a big investment in your

house and property You are determined to protect it and yourself from a disaster Being prepared for emergencies is high on your list of priorities But in a big emergency how will the rest of your neighborhood fare Will people around you know how to protect themselves and how to help their neighbors including you That s the situation we found ourselves in and we weren t ready to accept it So we gathered up our energy our marketing skills and our experience as trainers and began what has turned out to be a 15 year experiment at improving emergency preparedness in our community This book details what we have learned so far about building a neighborhood emergency response team And our goal is to share it to help others build their own neighborhood team The book is one of a series each aimed at a different type of community apartment multi family mobilehome or business Of course every community is different And while we approach building a neighborhood team in three broadly defined steps we try to include many many ways to go about getting there The three steps are simple 1 Prepare yourself and your family 2 Get CERT Community Emergency Response Team training and build a core group around you 3 Build document and practice your neighborhood plan for credibility and consistency Sounds simple but there are many choices to be made along the way Some of the resources we ve included that we think will make your choices easier Using the advantages and watching out for the disadvantages of living in a particular size and type of community Lists of emergency supplies for survival kits evacuation kits pet survival kits etc Eight priorities for personal preparations MANY suggestions for holding meetings that will recruit new members and keep them involved We have been involved in hundreds of such meetings over the years List of emergency items your neighborhood team members will want and will appreciate 7 things about your location to investigate before you even start building the team Step by step to creating the organization chart and filling in the blanks with neighbors names Sample charts communications matrix meeting invitations Legal alerts and warnings Real life short stories of things we tried that didn t work so well Finally we admit to some of our frustrations with the process and we try to remind enthusiastic leaders about what to expect from volunteers There are no guarantees in this book Emergencies by their very definition are unexpected and unknown What we do know though is that whatever preparations you and your neighbors make and whatever planning you do gives you a better chance of keeping that emergency from becoming a disaster This book will help get you started *Emergency Preparedness for Apartment Communities - the WORKBOOK* Virginia S. Nicols,2019-09-11 From an Emergency Preparedness Planning perspective apartment living has some advantages over detached homes in that residents are housed closely together as opposed to being scattered throughout the community This makes it easier to communicate and in a disaster scenario it s likely that triage assessing seriousness of injuries can be conducted more expeditiously But there are also drawbacks particularly from the standpoint of stocking emergency supplies of food and water and ability to secure furniture and appliances by attaching them to walls etc Also depending on the type of apartment building s there may be limited avenues of escape and additional risks of fire or other hazards due to the close proximity of neighbors In 2018 I wrote the book Emergency Preparedness for

Apartment Communities based on my own years as a both an apartment renter and a homeowner It covers many aspects of preparedness from 1 personal readiness to 2 getting more neighbors involved to 3 actually putting together a written plan Appendices in the book cover different threats recruitment ideas legal cautions training options and emergency communications Throughout I ve listed additional resources People liked the book but admitted to me that there was still too much for them to get their arms around So I wrote a companion THE WORKBOOK It follows the same content flow but is truly a workbook just as you d expect It has simple questions and spaces for you to write your answers Step by step you ll be taking action Answering questions to help set personal priorities Researching what planning has already been done Making sure your owners and or managers are on board Finding and inviting interested neighbors to learn more Getting training for yourself and your team Learning about your community infrastructure utilities etc Picking which disasters to plan for Meeting the First Responders that serve your community Planning and holding meetings for neighbors to learn more about first aid ways to strengthen your home etc The Q A format of THE WORKBOOK moves you and your group forward by simple steps one after another on your own time frame Many of the questions make it easy to engage others in your family or group If you haven t been able to make the progress you d like on your own readiness or if you want to help your whole community get better prepared get *Emergency Preparedness for Apartment Communities* and its companion THE WORKBOOK Everything you re likely to need to know is in these step by step guides as well as how and where to go to find everything else
