Disaster And The Millennium:

Disaster and the Millennium Michael Barkun, 1986-08-01 The world of millenarian movements holds a special fascination The idea of transforming an existing imperfect society overnight into a perfect utopia has a powerful appeal and over and over in widely scattered areas and epochs groups have followed the call of a messiah figure to usher in a beautiful new world What causes these movements to arise Do they conform to any common patterns In this absorbing study of unconventional human behavior Michael Barkun develops a broad based analysis that focuses on millenarian movements as consequences of local disasters He presents many examples of millenarian groups in action in both modern and preindustrial societies and reviews existing theories and explanations After describing the characteristics of the disaster situations that produce them he explores the psychological effects of disasters discusses the conversion process and grapples with the question whether such movements are rational He concludes with a detailed examination of millenarianism in the modern world The longing for utopia is a durable human quality Both general readers and scholars interested in problems of change violence and social upheaval will find *Disaster and the Millennium* wide ranging and provocative

The European Dream Walter Schwimmer,2004-01-01 Europe is a strange continent Strictly speaking it is not a continent at all but a mere peninsula tacked on to Asia from where many of its first inhabitants undoubtedly came And yet despite its huge variety of features languages landscape and peoples this smallest of continents has achieved a clear cultural identity It is certainly true that Eurospeak lacks poetry and that the myths of today are mainly nationalist chauvinistic and of the No to Europe type But says the author My Europe is not the Europe that regulates the curve on bananas quarrels over subsidies for farmers or fights for places on the Council or Commission I still believe in dreams especially the European dream The author quotes Vaclav Havel Without dreaming of a better Europe we shall never build a better Europe Going back to the origins of the European idea Dr Schwimmer traces the true content of Robert Schumann s vision and shows how this must still be our inspiration But the author goes back beyond that and looks at other visions of a Federal Europe From the Hapsburg Empire to the League of Nations and Woodrow Wilson s celebrated speech in 1918 various concepts are examined carefully In propounding his dream for the future the author takes on the Eurosceptics directly and shows how Europe must be the key to its inhabitants tackling the problems of world terrorism human rights and the internal strife of Russia and the Balkan States
