Dimensions Of Sheckley:

Dimensions of Sheckley Robert Sheckley, 2002 Udvalgte science fiction tekster af Robert Scheckley *Off the Main Sequence* Tom Easton, 2006-10-01 Tom Easton has served as the monthly book review columnist for Analog Science Fiction for almost three decades having contributed during that span many hundreds of columns and over a million words of penetrating criticism on the best literature that science fiction has to offer His reviews have been celebrated for their wit humor readability knowledge and incisiveness His love of literature particularly fantastic literature is everywhere evident in his essays Easton has ever been willing to cover small presses obscure authors and unusual publications being the only major critic in the field to do so on a regular basis He seems to delight in finding the rare gem among the backwaters of the publishing field A reviewer's job he says is not to judge books for the ages but to tell readers enough about a book to give them some idea of whether they would enjoy it And this he does admirably whether he's discussing the works of the great writers in the field or touching upon the least amongst them This companion volume to Periodic Stars Borgo Wildside collects another 250 of Easton's best reviews from the last fifteen years of The Reference Library No one does it better and no other guide provides such lengthy or discerning commentary on the best SF works of recent times Complete with Introduction and detailed Index

Dimension of Miracles Robert Sheckley, 2014-04-01 A hapless Earthling must find his way home through a universe of absurdities in this science fiction romp from a Hugo and Nebula Award nominated master New York civil servant Thomas Carmody has never been particularly lucky Imagine his surprise when he discovers he's won the grand prize in an Intergalactic Lottery he had no idea he'd entered Whisked far away to Galactic Central to claim his award he has two immediate equally troubling revelations Not only does his Prize a talkative device that changes shape serve no practical purpose whatsoever but now he's expected to find his own way back to Earth Of course Carmody has no idea where when or even which universe he's been stranded in Ignoring the worthless advice and opinions of his increasingly annoying Prize he embarks on a bizarre odyssey that takes him from alternate Earth to alternate Earth bringing him into close contact with all manner of strangeness and even with a bored God Almighty Himself But Carmody's sweepstakes windfall comes with yet another unexpected drawback Suddenly an unrelenting predator is on his tail determined to eliminate the glitch wandering lost through numerous dimensions where he does not belong A full decade before Douglas Adams devised The Hitchhiker's Guide to the Galaxy Robert Sheckley created his Dimension of Miracles launching one luckless protagonist on a hilarious journey across an alien universe of intelligent dinosaurs and mothering sentient towns Fans of Kurt Vonnegut Roger Zelazny Terry Pratchett's Discworld and Harry Harrison's Bill the Galactic Hero will delight in Sheckley's biting and brilliant Alice in Wonderland like outer space adventure
