*Ding Hao* Cornelius, Wanda, 1980      *Ding Hao, America's Air War in China, 1937-1945* Wanda Cornelius, Thayne Short, 1980 Recounts America's involvement in the air war in China during World War II and the life of Claire L Chennault

**Historical Dictionary of Modern China (1800-1949)** James Z. Gao, 2009-06-16 The Historical Dictionary of Modern China 1800-1949 offers a concise but comprehensive examination of the political, military, economic, social, and cultural development of modern China. Instead of focusing merely on the political elites of China, this reference covers a variety of significant persons, including women and ethnic minorities, new historical concepts, cultural and educational institutions, and economic activities. Drawing on newly available records, including a large mass of governmental and family archives, the narratives presented reveal new facts, offer a new interpretation in accordance with China's modernization process during the late Qing period, and a revisionist perspective on the Republican history. The chronology records not only political and military events but also other experiences of the Chinese people. The bibliography gives prominence to current literature on China's drive towards modernization, and appendixes provide the reader with detailed information on China's cultural and economic transformation.

**Historical Dictionary of World War II** Anne Sharp Wells, 2023-12-15 World War II was the largest and most costly conflict in history, the first true global war. Fought on land, on sea, and in the air, it involved numerous countries and killed, maimed, or displaced millions of people, both civilian and military, around the world. In spite of the alliances that bound many of the same participants, the war was essentially two separate but simultaneous conflicts: one involved Japan as the major antagonist and took place mostly in Asia and the Pacific, and the other initiated by Germany and Italy, was contested mainly in Europe, North Africa, the Mediterranean, and the Atlantic. This book focuses on the lesser-known war, the war with Japan. It begins with Japan's seizure of Manchuria from China in 1931 and covers Japan's ambitious attacks on Pearl Harbor and other territories, ten years later, the use of atomic bombs on Japan's cities, and the end of the Allied occupation of Japan in 1952. Although Japan renounced war in its 1947 constitution, conflict continued across Asia as former colonies fought for independence and civil war engulfed other areas. *Historical Dictionary of World War II: The War Against Japan*, Second Edition, contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 500 cross-referenced entries on the military, diplomatic, political, social, economic, and scientific aspects of the war, in addition to the lives of the people who participated in and directed the war. This book is an excellent resource for students, researchers, and anyone wanting to know more about the war against Japan during World War II.

*Chinese America: History and Perspectives 1993*,      *United States Air Force and Its Antecedents* James T. Controvich, Martin Gordon, 2004-06-24 This expanded and revised edition of the bibliography originally compiled for the United States Air Force Historical Research Agency is the most comprehensive listing of unofficial published histories of the United States Air Force and its antecedents. It covers the air force from its genesis as the US Army Signal Corps Aviation Section to the present. These

titles are a rich source of information for anyone interested in the history of combat and peacetime operations of the Air Force Researchers and libraries will find the organization of titles easy to use Entries include private sponsored or unofficial histories often written by the unit historian personal narratives purely photographic or pictorial histories route of battle maps published or printed rosters officially produced titles This is an indispensable resource for military aviation historians libraries with strong collections in military and air force history and unit history collectors It is also of special interest to genealogists as many unit histories contain rosters and photos of personnel Dictionary of Contemporary Chinese Military History Larry M. Wortzel,1999-09-30 Tracking the evolution of the Red Army through the war against Japan and the Chinese civil war Wortzel s book provides a comprehensive basic reference focusing on the major events people and issues that have produced the historical legacy of the People s Liberation Army Placing contemporary Chinese military history in the context of China s 19th century clashes with the West and Japan Wortzel illustrates how the imposition of unequal treaties by foreign powers conditioned China s 20th century defense forces and actions and explains how the Communist military forces developed It also shows how fractionalization in the Communist military leadership led to the Cultural Revolution and Mao Zedong s purges Drawing on a substantial number of sources available only in Chinese as well as on English language secondary sources the book provides a basic reference aimed at orienting the nonspecialist to the significant events and people in China s recent military history The book will also provide a quick reference for the specialist in Chinese history

*The Flying Tigers* Braxton Eisel,2009 Product Description They volunteered For a variety of reasons patriotic altruistic mercenary or just for the hell of it Nearly three hundred U S servicemen and a couple of female nurses volunteered to fight a war in a place they knew little about Recruited at military bases around the country the members of the American Volunteer Group AVG set off for the unknown in the summer and fall of 1941 While U S support for the Allied cause was growing at a steady pace most Americans still felt distanced from the conflict enveloping Europe and Asia and did not want to go to war At the highest levels of the government however entering the war appeared inevitable The AVG was one way of gaining experience in this vicious war while increasing support for the nations fighting the Axis powers Despite incredible odds against them from numerically superior Japanese forces and a near complete lack of supply and replacement parts they took the first successful fight to the Japanese during a time of Japan s unrelenting successes It was not pretty and their legend has eclipsed the reality but the reality of the AVG is still an amazing story Led by Claire Lee Chennault they made history A Companion to World War II Thomas W. Zeiler,Daniel M. DuBois,2012-12-21 A Companion to World War II brings together a series of fresh academic perspectives on World War II exploring the many cultural social and political contexts of the war Essay topics range from American anti Semitism to the experiences of French African soldiers providing nearly 60 new contributions to the genre arranged across two comprehensive volumes A collection of original historiographic essays that include cutting edge research Analyzes the roles of neutral nations during the war Examines the war from the bottom up
