*Mess Night Traditions* Charles J. Gibowicz,2007-09 This book is about the military Sea Service Mess Night the Sea Services consisting of the Navy Marines and Coast Guard Mess Nights are traditional time honored events going back to at least the 18th Century Formal military dining has historically been a way to communicate to celebrate special events and a way to promote unity and camaraderie The Mess Night although a military formation and a formal event is also a great deal of fun Some of today s protocol and script is not exactly matching the past Today s Mess Night is a bit more regimented and programmed but basically reflects all that was included in the old days and also reflects some of procedures used during the days of sail This book is written because there are no books on Mess Nights this is a first Like many Sea Service customs and traditions this custom has been handed down from generation to generation unwritten Scripts and instructions were not necessary as Mess dinners were common The British Navy can claim a continuous unbroken tradition and they are basically the providers of the American tradition They host Mess dinners much more frequently than the Americans do and the entire Navy traditionally celebrates the anniversary of the Battle of Trafalgar Americans have no set celebration and also have fewer Mess Nights Many officers are not even aware of Mess Nights This is because of several factors covered in the book Hopefully this book will stimulate greater interest in this important event As the alcohol rule for ships rule has been loosened it is particularly hopeful that shipboard Mess Nights can again become an event It would be most appropriate to celebrate the event for which the ship is named or to begin the tradition of celebrating Navy Day or other famous event such as those listed in this book

**Restaurant Republic** Kelly Erby, 2016-09-01 Before the 1820s the vast majority of Americans ate only at home As the nation began to urbanize and industrialize home and work became increasingly divided resulting in new forms of commercial dining In this fascinating book Kelly Erby explores the evolution of such eating alternatives in Boston during the nineteenth century Why Boston Its more modest assortment of restaurants its less impressive but still significant expansion in commerce and population and its growing diversity made it more typical of the nation s other urban centers than New York Restaurants clearly segmented along class gender race ethnic and other lines helped Bostonians become more comfortable with deepening social stratification in their city and young republic even as the experience of eating out contributed to an emerging public consumer culture Restaurant Republic sheds light on how commercial dining both reflected and helped shape growing fragmentation along lines of race class and gender from the elite Tremont House which served fashionable French cuisine to such plebeian and ethnic venues as oyster saloons and Chinese chop suey houses The epilogue takes us to the opening in 1929 near Boston of the nation s first Howard Johnson s and that restaurant s establishment as a franchise in the next decade The result is a compelling story that continues to shape America
