## **Dionysius And The History Of Archaic Rome:**

*Dionysius and The History of Archaic Rome* Emilio Gabba, 2023-11-15 In *The History of Archaic Rome* Dionysius purposely viewed Roman history as an embodiment of all that was best in Greek culture Gabba places Dionysius's remarkable thesis in its cultural context comparing this author with other ancient historians and evaluating Dionysius's treatment of his sources In truth the last decades B C made the historian's task an enormous challenge On the one hand the ancient writers knew Rome to be the greatest empire the world had seen seemingly impregnable in military power and still capable of expansion On the other hand they were acutely aware that it recently had barely survived half a century of civil strife Gabba recalls to us how little was confidently known of Rome's actual origins in an illuminating examination of Dionysius's methodology as a historian In *The History of Archaic Rome* Dionysius purposely viewed Roman history as an embodiment of all that was best in Greek culture Gabba places Dionysius's remarkable thesis in its cultural context comparing this author with other ancient historians

**The Writings of Luke and the Jewish Roots of the Christian Way** J. Andrew Cowan, 2019-02-21 J Andrew Cowan challenges the popular theory that Luke sought to boost the cultural status of the early Christian movement by emphasising its Jewish roots associating the new church with an ancient and therefore respected heritage Cowan instead argues that Luke draws upon the traditions of the Old Testament and its supporting texts as a reassurance to Christians promising that Jesus' life, his works and the church that follow legitimately provide fulfilment of God's salvific plan Cowan's argument compares Luke's writings to two near contemporaries Dionysius of Halicarnassus and T Flavius Josephus both of whom emphasized the ancient heritage of a people with cultural or political aims in view exploring how the writings of Luke do not reflect the same cultural values or pursue the same ends Challenging assumptions on Luke's supposed attempts to assuage political concerns capitalize on antiquity and present Christianity as an inner Jewish sect Cowan counters with arguments for Luke being critical of over valuing tradition and defining the Jewish people as resistant to God and His messages Cowan concludes with the argument that the apostle does not strive for legitimisation of the new church by previous cultural standards but instead provides theological reassurance to Christians that God's plan has been fulfilled with implications for broader debate

**Rhetorical Adaptation in the Greek Historians, Josephus, and Acts** vol. I John M. Duncan, 2022-10-24 Greco Roman rhetorical theorists insist that speakers must adapt their speeches to their audiences in order to maximize persuasiveness and minimize alienation Ancient historians adorn their narratives with accounts of attempts at such rhetorical adaptation the outcomes of which decisively impact the subsequent course of events These depictions of speaker audience interactions moreover convey crucial didactic persuasive insights to the historians' own audiences This monograph presents a detailed comparative analysis of the intra and extra textual functions of speeches and audience responses in Greek historiography Josephus and Acts with special emphasis on Luke's distinctive depiction of the apostles as adaptable yet frequently alienating orators This is volume I of a set of two volumes

as building materials texts aesthetic objects and media for political messages with modern attitudes ranging from recycling to reverence The reuse of ancient inscriptions rediscovered in Wales gives way to an appreciation of them as historical sources A manuscript collection of inscriptions is analysed in terms of a two phased afterlife providing models for epitaphs and then a florilegium of verse The attitudes of seventeenth century antiquarians in categorizing inscriptions progresses from viewing inscriptions purely as texts to an appreciation of them as objects too By the eighteenth and nineteenth centuries British society valued many different types of inscription for their aesthetic qualities from Attic grave reliefs to Roman ash chests to contemporary architectural inscriptions This book documents the privileging of inscriptions as historical evidence how this encourages the modification or even creation of ancient inscriptions and how inscriptions are manipulated to support a particular interpretation of the past
