Max Ascoli

Diplomat Among Warriors The Unique World:

Rogue Diplomats Seth Jacobs, 2020-05-21 Many of America's most significant political economic territorial and geostrategic accomplishments from 1776 to the present day came about because a U S diplomat disobeyed orders The magnificent terms granted to the infant republic by Britain at the close of the American Revolution the bloodless acquisition of France's massive Louisiana territory in 1803 the procurement of an even vaster expanse of land from Mexico forty years later the preservation of the Anglo American special relationship during World War I these and other milestones in the history of U S geopolitics derived in large part from the refusal of ambassadors ministers and envoys to heed the instructions given to them by their superiors back home Historians have neglected this pattern of insubordination until now **Rogue Diplomats** makes a seminal contribution to scholarship on U S geopolitics and provides a provocative response to the question that has vexed so many diplomatic historians is there a distinctively American foreign policy **US Foreign Policy towards China, Cuba and Iran** Greg Ryan, 2017-08-10 Historically the United States saw itself as embodying the best system of government with a foreign policy goal of bringing this system to the rest of the world While Washington has at times dealt more realistically with other great powers at odds with this view it has also attempted to alienate lesser states who reject the American system The policies of non recognition of China Cuba and Iran were marked instances of this phenomenon As the Obama administration renewed ties with Cuba and contemplated a more cooperative relationship with Iran staunch opposition arose in defence of maintaining the long standing policy of disengagement with these regimes Providing a timely explanation for the origins of and continued support for US policies of non recognition toward China Cuba and Iran this book demonstrates the links between IR theory and US foreign policy through the lens of the English School concept of International Society It identifies historic costs stemming from US policies of non recognition and cautions that maintaining an overly narrow frame for understanding global politics will cause greater difficulties for US foreign policy in the future This book will be useful for American researchers graduate students and upper level undergraduates in IR and American Foreign Policy The inclusion of English School concepts and contrasting of IR theory inside and outside the US should also make it appealing to students in the UK and Australia **Armor**, 1964 **Middle East Perspectives** Bassil A. Mardelli, 2010-04-20 **Middle East Perspectives** is the first book of a trilogy about the Middle East and it addresses the period from 1947 to 1967 The author seeks to portray personal recollections of events that occurred mainly in Egypt Lebanon Iraq and Syria over a span of twenty years Decisions made by key political players have influenced their lives and many readers can offer a concise preliminary account of their experiences in the Middle East and provide a dramatic journal of observations Contributions in terms of personal perspectives and interpretations focus on international affairs not personal minutiae The author talked with many people from Egypt and the Levant who left there but who voluntarily allowed him to draw on their knowledge and experiences He kept diaries from his high school days as well as personal memoirs to which he

often referred to look up particular dates for instance the demonstrations that were started during his high school days for the causes of Algeria and Patrice Lumumba and the launching of Lebanon's first rockets Volume One addresses the period beginning with an early stage when the Middle East was still experiencing the unforeseen repercussions of the victorious Allied Forces over Germany in World War II until the commencement of the one hundred and twenty hours of the Arab Israeli War in 1967 In fact the ensuing situation is still one of the factors behind the turmoil in the Middle East When the governing elite begin to compete and fight among themselves there is every certainty that their journey will be hazardous and there is no guarantee they will arrive safely It is true that their differences in the end will prove to be illusory and in the absence of any serious effort at reconciliation rebellious second raters will take over The prestige and importance of the incoming rebels is considered to exceed by far that of those of the outgoing rulers themselves The political powers of the newcomers are interwoven with the material rewards of offices When the rebels become rulers the palaces jewels and treasures of the deposed monarchs as for example in the cases of Kings Farouk I of Egypt and Faisal II of Iraq are taken over and distributed among the minority of their successors Eventually these rebels begin to establish a tradition for which they have perceived hereditary rights to their new important offices each to retain the position as heirs or next heirs to the authority This fact strangely typical of its kind up to now should be borne in mind when considering the explosive relations between clans at this juncture of Middle Eastern history And that will continue to be true as long as a constitutional Statehood is not in place One of the primary objectives of the junta is to figure out how to preserve their presence and maintain power Deeply moving is when foreign intervention begins to capitalize on such weaknesses thence the wheel begins to turn full circle As the realm flounders in inflation the intellectual elite and upper middle classes leave their home countries which can no longer satisfy their needs Thus begins the influx of immigrants arriving in Australia Europe and America

When France Fell Michael S. Neiberg, 2021-10-19 Shocked by the fall of France in 1940 panicked US leaders rushed to back the Vichy government a fateful decision that nearly destroyed the Anglo American alliance According to US Secretary of War Henry Stimson the most shocking single event of World War II was not the Japanese attack on Pearl Harbor but rather the fall of France in spring 1940 Michael Neiberg offers a dramatic history of the American response a policy marked by panic and moral ineptitude which placed the United States in league with fascism and nearly ruined the alliance with Britain The successful Nazi invasion of France destabilized American planners strategic assumptions At home the result was huge increases in defense spending the advent of peacetime military conscription and domestic spying to weed out potential fifth columnists Abroad the United States decided to work with Vichy France despite its pro Nazi tendencies The US Vichy partnership intended to buy time and temper the flames of war in Europe severely strained Anglo American relations American leaders naively believed that they could woo men like Philippe Pétain preventing France from becoming a formal German ally The British however understood that Vichy was subservient to Nazi Germany and instead supported resistance figures such as Charles de Gaulle

After the war the choice to back Vichy tainted US French relations for decades Our collective memory of World War II as a period of American strength overlooks the desperation and faulty decision making that drove US policy from 1940 to 1943 Tracing the key diplomatic and strategic moves of these formative years When France Fell gives us a more nuanced and complete understanding of the war and of the global position the United States would occupy afterward *The New York Times Book Review*, 1965 **The New Republic** Herbert David Croly, 1964 *Review of the Study Centre for Yugoslav Affairs* Study Centre for Yugoslav Affairs, 1977 *Foreign Service Journal*, 2008 *Ramparts*, 1965 Issues for Dec 1970 Apr 1972 include section Hard times *American Intelligence*, 1775-1990 Neal H. Petersen, 1992 *Saturday Review*, 1965-07 *Torch and the Twelfth Air Force* Monro MacCloskey, 1971 *The Reporter* Max Ascoli, 1965 *Show*, 1964-10 **U.S. Foreign Relations with the Middle East and North Africa** Sanford R. Silverburg, Bernard Reich, 1999-07-28 This volume updates and expands the authors 1994 title U S Foreign Relations with the Middle East and North Africa A Bibliography Nearly 3 500 discrete professional or scholarly sources are compiled in this new volume mostly in Western languages Titles are organized by carefully chosen descriptors which reflect general categories while simultaneously focusing as closely as possible on the individual sources Accessibility of the sources is further augmented by both a subject and an author index With an abundance of sources this new volume brings the previous texts up to date maintaining the strengths of the earlier volume *Remember Hungary, 1956* Tibor Glant, 2007 Consisting of five essays examining the American portrayal of the Hungarian Revolution of 1956 this title examines depictions in the New York Times history textbooks fiction prose art and memoirs of diplomats *The First Summit* Theodore A. Wilson, 1991 Four months before Pearl Harbour Winston Churchill and Franklin D Roosevelt met in secret aboard a ship in a secluded Newfoundland harbour This was the first summit conference of World War II *Challenge and Response in Internal Conflict: The experience in Europe and the Middle East* Doris M. Condit, 1967 **John Foster Dulles** Louis L. Gerson, 1968 John Foster Dulles was one of the most admired and criticized Secretaries of State in the entire history of that great office And yet whatever may be the ultimate verdict of history even his detractors admitted that he faced an international situation far more difficult than the eras of any of his predecessors For the first time in the history of the Republic all of the nation s territory lay open to a devastating attack by a foreign power Dulles unlike his predecessors no longer could pass his insoluble diplomatic problems to the War Department If Dulles displayed an acute sensitivity to religious issues it was understandable in so threatening an era Biographer Louis L Gerson received exceptional access to unpublished materials relating to the life of the late Secretary and interviewed key participants in international affairs of the 1950s His study illuminates many of the dark corners of that decade s foreign relations Adapted from dust jacket
