RICHARD II,1933

The diplomatic correspondence of Richard 2 King of England Richard II,1933 **Medieval Women and Their Objects** Jennifer Adams,Nancy Bradbury,2021-03-11 The essays gathered in this volume present multifaceted considerations of the intersection of objects and gender within the cultural contexts of late medieval France and England Some take a material view of objects showing buildings books and pictures as sites of gender negotiation and resistance and as extensions of women s bodies Others reconsider the concept of objectification in the lives of fictional and historical medieval women by looking closely at their relation to gendered material objects taken literally as women s possessions and as figurative manifestations of their desires The opening section looks at how medieval authors imagined fictional and legendary women using particular objects in ways that reinforce or challenge gender roles These women bring objects into the orbit of gender identity employing and relating to them in a literal sense while also taking advantage of their symbolic meanings The second section focuses on the use of texts both as objects in their own right and as mechanisms by which other objects are defined The possessors of objects in these essays lived in the world their lives documented by historical records yet like their fictional and legendary counterparts they too used objects for instrumental ends and with symbolic resonances The final section considers the objectification of medieval women s bodies as well as its limits While this at times seems to allow for a trade in women authorial attempts to give definitive shapes and boundaries to women s bodies either complicate the gender boundaries they try to contain or reduce gender to an ideological abstraction This volume contributes to the ongoing effort to calibrate female agency in the late Middle Ages honoring the groundbreaking work of Carolyn P Collette **The King's Secretary and the Signet Office in the XV Century** J. Otway-Ruthven,1939-01-02 Miss Otway Ruthven examines the history of the office of the King s Secretary from 1377 the first appearance of a King s Secretary to 1509 demonstrating its rise from the comparative unimportance of a confidential clerkship to a position worthy of the attention of a bishop and a fitting instrument of Tudor Government **Anne of Bohemia** Kristen L. Geaman,2022-04-19 This volume examines the life of Anne of Bohemia the first queen of Richard II 1377 1399 and situates her within the context of medieval queenship by arguing that Anne ably fulfilled the political role of the queen consort through her intercession patronage and piety Much

previous scholarship on Anne has focused on her relationship with famous poets such as Geoffrey Chaucer but from analyzing government documents it becomes clear that Anne used her wealth and status to enact power Through financial religious and cultural patronage Anne rewarded supporters and servants and influenced court life The examination of sources such as a letter from Anne to her half brother and an apothecary bill that contains some fertility medicines suggests that the queen both desired and tried to have children As such the volume questions the public imagination of Anne and shows that in this example although she died childless Anne and Richard attempted to have children throughout their marriage With the inclusion of tables listing Anne s acts of intercession and her land holdings and land grants Anne of Bohemia is a useful tool for students and scholars interested in queenship studies medieval women s history and the history of the English monarchy The Sanity of Richard II. Melva Jane Allen Aufenkamp,1962 The Letters of Richard Henry Lee: 1779-1794 Richard Henry Lee,1914 **Following Chaucer** Lynn Staley,2020-04-21 Following Chaucer Offices of the Active Life explores three representative figures the royal woman the poet and the merchant in relation to the concept of office which Cicero linked to the health of the republic but Chaucer to that of the common good Not usually conjoined to the term office these three figures situated in the active life were not firmly mapped onto the body politic which was used to figure a relational and ordered social body ruled by the king the head These figures are points of entry into a set of questions rooted in Chaucer s understanding of his cultural and historical past and in his keen appraisal of the social dynamics of his own time that also reverberate in the centuries after Chaucer s death Following Chaucer does not trace influence but uses Chaucer s likely reading circumstances and literary and social affiliations as guides to understanding his poetry within the context of late medieval English culture and the reshaping of the concept of these particular offices that suited the needs of a future whose dynamics he anticipated His understanding of the importance of the Ciceronian concept of office within the active life his profound cultural awareness and his probing of the foundations of social change provide him with a keen sense of the persistent tensions and inconsistencies that are fundamental to his poetry **The Letters of Richard Henry Lee: 1762-1778** Richard Henry Lee,1911 The Diplomatic Correspondence of the Right Hon. Richard Hill Richard Hill,William Blackley,2024-04-28 Reprint of the original first published in 1845 **Prague and Bohemia: Medieval Art, Architecture and Cultural Exchange in Central Europe: Volume 32** Zoe Opacic,2024-11-01 This book explores the remarkable flourishing of art and architecture in Bohemia and Prague as it became the political centre of Charles IV s Holy Roman Empire It focuses on cultural exchange and the links that can be traced through the artwork across Europe
