Reshaping National Intelligence for an Age of Information Gregory F. Trevorton,2003-03-03 In this bold and penetrating study Gregory Trevorton former Vice Chair of the National Intelligence Council and Senate investigator offers his insider s views on how intelligence gathering and analysis must change He suggests why intelligence needs to be both contrarian leaning against the conventional wisdom and attentive to the longer term leaning against the growing shorter time horizons of Washington policy makers He urges that the solving of intelligence puzzles tap expertise outside government in the academy think tanks and Wall Street to make these parties colleagues and co consumers of intelligence befitting the changed role of government from doer to convener mediator and coalition builder

Embassies in Armed Conflict G. R. Berridge,2012-02-02 This is an examination of how embassies work and cope during wartime with a focus on the experiences of the British American and Indian embassies During wartime embassies assume different roles and face various situations An embassy might represent a belligerent state while being situated in an enemy an allied or a neutral state Conversely it might represent a neutral state while having to function in a belligerent state How does an embassy s situation affect its priorities How does it affect its staff and mission The work and risks they face may vary greatly but embassies play a key role in war a time when they are required to give higher priority to military and political intelligence while facing daily risks of attacks and managing media and high ranking visitors Embassies in Armed Conflict examines these issues and the problems wartime embassies encounter by looking primarily at the experiences of American British and Indian embassies Written by a leading expert the book aims to both examine the role of wartime embassies and to provide guidance for those who serve or wish to serve in the Foreign Service The volumes in the series are relatively short handbooks aimed at beginning practitioners and advanced university students The volumes highlight the ways foreign policy is implemented through the apparatus of diplomacy the diplomatic system and diplomats and will discuss specific aspects of diplomacy such as the concept of diplomatic relations the consequences of cutting off diplomatic relations diplomatic immunity etc and key diplomatic activities and events such as an international crisis or a summit meeting Such books will focus on the conduct of diplomacy rather than its politics The focus will be on the contemporary practice of diplomacy not on foreign policy or the theoretical direction of diplomacy

Iran's Shadow Weapons Jonathan W. Hackett,2025-06-26 Surveillance assassination and war by proxy all ingredients for an unending disaster that never seems to end for those exposed to the wrath of the Islamic Republic of Iran Despite the prevalence of these and other malign acts few observers understand why and how the regime chooses these tools of fear and disruption Even fewer can foil them In this first work of its kind the author draws upon two decades of experience to lay bare the calculus structure and execution of Iran s foreign intelligence activities
