Dipsea The Greatest Race:

Dipsea, the Greatest Race Barry Spitz, 2022 **Quest for the Finish** Jim Buck, 2020-09-01 Quest for the Finish Diary of a Distance Runner is the story of one man's personal experiences in the custom of running. It details how he got mixed up in such an endeavor and how it became an integral part of his life, how it morphed into a preferred method for keeping fit. The author describes how a fitness routine can become a sport, how the everyday jogger can become an athlete, how the athlete moves from one challenge to the next. In relating his running experiences over the years, the author provides detailed and inspirational accounts of his own experiences in training and in races at distances from 1 mile to the 26.2 mile marathon. These accounts offer valuable insights into training and racing techniques, the challenges of reaching the finish line, the joy of competition, the anguish when things go wrong. The book is also a travel log of sorts, since it provides descriptions of running adventures across the USA and in several foreign countries. The author takes the reader on an often humorous and sometimes painful journey from the novice runner to the peak of fitness, followed by the eventual slow decline in performance that comes with age and life's struggles.

American Women's Track and Field Louise Mead Tricard, 1996-01-01 In 1985 the Vassar College Athletic Association ignored the constraints placed on women athletes of that era and held its first ever women's field day featuring competition in five track and field events Soon colleges across the country were offering women the opportunity to compete and in 1922 the United States selected 22 women to compete in the Womens World Games in Paris Upon their return female physical educators severely criticized their efforts decrying the evils

of competition Wilma Rudolph's triumphant Olympics in 1960 sparked renewed support for women's track and field in the United States. From 1922 to 1960 thousands of women competed and won many gold medals with little encouragement or recognition. This reference work provides a history based on many interviews and meticulous research in primary source documents of women's track and field from its beginnings on the lawns of Vassar College in 1895 through 1980 when Title IX began to create a truly level playing field for men and women. The results of Amateur Athletic Union Women's Indoor and Outdoor Track and Field Championships since 1923 are given as well as full coverage of female Olympians.
