A Comparative Study of Referendums Mads Qvortrup, Matt Qvortrup, 2002 In times of heightened national security scholars and activists from the communities under suspicion often attempt to alert the public to the more complex stories behind the headlines But when they raise questions about the government military and police policy these individuals are routinely shut down and accused of being terrorist sympathisers or apologists for gang culture In such environments there is immense pressure to condemn what society at large fears This collection explains how the expectation to condemn has emerged tracking it against the normalisation of racism and explores how writers manage to subvert expectations as part of their commitment to anti racism

D., 2000-01-01 All people share the basic needs of survival and the social drives embedded in human nature Survival demands sustenance safety and procreation and the social drives demand dignity justice and freedom These shared values emerge when the common will is distilled from the diverse wills of people Where this communal wisdom governs human dignity will be honored and our survival will be secure This book describes a system of pure democracy where all major decision are done through referendums and statistically meaningful public opinion polls The policies are then executed by expert agencies with oversight from public policy panels The book also describes transition to Direct Democracy through Representatives pledged to I shall vote in Congress or Parliament according to the instructions of my constituents

Referendums Around the World Matt Qvortrup, 2017-08-16 This book provides a comprehensive summary

and analysis of all the nationwide referendums since 1793 Referendums are ubiquitous and they are increasingly becoming vehicles for political change or sometimes vehicles of conservatism In 2016 for example the voters in the United Kingdom caused a major upheaval when they voted for leaving the European Union Later in the same year a majority of the voters in Colombia rejected a peace plan carefully negotiated by the political elites to end decades of civil war Were these decisions prudent Why were these issues submitted to referendums Why did the majority of voters vote against the governments recommendations Have the people had grown tired of the old political class Was this a new tendency These are some of the questions addressed in this new edition which will be compulsory reading for anyone interested in or concerned about populism and democracy
