Jung's Studies in Astrology Liz Greene, 2019-09-04 Winner of the IAJG award for best authored book of 2018 C G Jung had a profound interest in and involvement with astrology which he made clear in virtually every volume of the Collected Works as well as in many of his letters This ancient symbolic system was of primary importance in his understanding of the nature of time the archetypes synchronicity and human fate Jung's Studies in Astrology is an historical survey of his astrological work from the time he began to study the subject It is based not only on his published writings but also on the correspondence and documents found in his private archives many of which have never previously seen the light of day Liz Greene addresses with thoroughness and detailed scholarship the nature of Jung's involvement with astrology the ancient medieval and modern sources he drew on the individuals from whom he learned his ideas about how and why it worked its religious and philosophical implications and its applications in the treatment of his patients as well as in his own self understanding Greene clearly demonstrates that any serious effort to understand the development of Jung's psychological theories as well as the nature of his world view needs to involve a thorough exploration of his astrological work This thorough investigation of a central theme in Jung's work will appeal to analytical psychologists and Jungian psychotherapists students and academics of Jungian and post Jungian theory the history of psychology archetypal thought mythology and folklore the history of New Age movements esotericism and psychological astrology

Secrets of Predictive Astrology Anthony Louis, 2023-12-08 Improve Your Forecasts with William Frankland's Simple Dependable Techniques In the 1920s London astrologer William Frankland revolutionized predictive astrology His logical and orderly methods were revered for their direct reliance on the birth chart instead of complex and time consuming mathematics Though Frankland's name is not well known today his rapid and reliable techniques are still relevant Now you can learn them for yourself Unsatisfied with the traditional techniques of his time Frankland turned to texts by Claudius Ptolemy and Alan Leo to develop more nuanced accuracy in forecasting Drawing from Frankland's two books author Anthony Louis analyzes more than sixty example charts showing how inclusive and uncomplicated these game changing techniques can be even with charts where the exact birth time is not known Louis delves into the relationship between one's age and zodiac signs using Ptolemy's seven ages of man and Alan Leo's twelve stages of life and how birth numbers can identify potentially significant years He also explores how Frankland utilized midpoints symbolic directions planetary periods operative influences the twelve houses and more With Louis's valuable insight on Frankland's predictive system you can make the most of opportunities to come Includes a foreword by Maria Blaquier director of Academia de Astrologia Avanzada MB in Argentina
