Directory Of Chinese Learned Organizations:

□□□□□□□□,1990 The Directory of Chinese Learned Organizations DCLO is a complete guide to various academic institutions in the People's Republic of China. The entries are grouped into 5 parts: research and design institutes 2 400, addresses, universities and colleges 590, societies and associations 411, public and special libraries 129, museums 81. Detailed descriptions furnish each unit's full name and address both with Chinese translation and further contact information. Additional information to most entries includes founding dates, executives, staff, teachers and students, members, divisions and branches, departments and faculties, aims and activities, achievements, facilities and holdings, histories and more facts which help to match information needs to the appropriate organization. Three indexes enable you to locate organizations in a particular province, municipality, autonomous region, to pinpoint organizations active in a particular field and to find them by Chinese phonetics/pinyin.

Twentieth Century China James H. Cole, 2004. Emphasizing reference works published since 1964, these volumes cover books, periodicals and inclusions i.e. chapters in edited volumes on the 1911 Revolution, the Republic of China 1949, post 1911 Taiwan, post 1911 Hong Kong and Macao and post 1911 overseas Chinese.

Buttress's World Guide to Abbreviations of Organizations Jean C. Swinbank, 2012-12-06. This edition of over 60 000 entries including significantly more than 20% new or revised material not only updates its predecessor but also continues the policy of extending coverage to areas dealt with only sparsely in previous editions. Special attention has been paid to the Far East, Australasia and Latin America in general and to the People's Republic of China in particular. The cross-referencing between a defunct organization and its successor indicated by ex and now introduced into the last edition has been extended. Otherwise the policies adopted in previous editions have been retained. All kinds of organizations are included: international, national, governmental, individual, large or small, but strictly local organizations have been omitted. The subject scope includes activities of all kinds in the fields of commerce and industry, education, law, politics, public administration, religion, recreation, medicine, science and technology. The country of origin of a national organization is given in brackets unless it is the home country of the title language or can be deduced readily from the title itself. Acronyms of parent bodies of subsidiary organizations are also added in brackets. Equivalences are used to link acronyms in different languages for the same organization. A select bibliography guides the reader to specialist works providing more detailed information.

Area Bibliography of China Richard T. Wang, 1997. A combination of scholarly, commercial and popular interests has generated a large quantity of literature on every aspect of Chinese life during the past two decades. This bibliography reflects these combined interests; it is broken up into sections by subject headings and cross-references refer the researcher to related topics.

The Educational Directory of China, 1914 Directory of Chinese Agricultural and Related Organizations Qiaoqiao Zhang, C.A.B. International, 1994. This is a directory of all Chinese agricultural related organisations including those concerned with production, postharvest and commerce.

Walford's Guide to Reference Material: Generalia, language and literature, the

arts Albert John Walford,1998 From its first edition the purpose of Walford has been to identify and evaluate the widest possible range of reference materials No rigid definition of reference is applied In addition to the expected bibliographies indexes dictionaries encyclopaedias and directories a number of important textbooks and manuals of general practice are included While the majority of the items are books Walford is a guide to reference material Thus periodical articles microforms online and CD ROM sources are all represented In this volume a particular effort has been made to improve coverage of the latter two categories
