they appeared before Yorktown Holmes 2013 251 The Confederates agreed with this assessment At Yorktown when almost daily ascensions were made our camp batteries field works and all defenses were plain to the vision of the occupants of the balloons The balloon ascensions excited us more than all the outpost attacks Indeed with advances in dirigible technology many military thinkers and even aeronautical enthusiasts believed that blimps would remain the chief military aerial asset more or less forever These men thought airplanes would play a secondary role at best and that they might even prove a uselessly expensive gimmick soon to fade back into obscurity leaving the majestic bulk of the dirigible as sole master of the skies While this obviously did not prove true dirigibles proved popular in a variety of different ways throughout the 20th century and they continued to be complements even as airplane technologies rapidly advanced Modern Balloons and Airships The History and Legacy of Dirigibles during the 20th Century looks at the development of balloons and airships during the 20th century and the innovative ways they were used Along with pictures depicting important people places and events you will learn about modern balloons and airships like never before A Compendium of Aviation and Aerostation, Balloons, Dirigibles and Flying-machines Hermann Hoernes,1911 **Early Balloons and Airships** Charles River Editors,2019-08-02 Includes pictures Includes a bibliography for further reading The Wright Brothers initially underestimated the difficulties involved in flying and they were apparently surprised by the fact that so many others were working on solving the problem of human flight already Decades before their own historic plane would end up in the National Air it would never fly again A decade later aircraft appeared in the skies over the battlefields of World War I but they did not represent a complete novelty in warfare either at least not during the early months of World War I While airplanes had never before appeared above the field of war other aerial vehicles had already been in use for decades and balloons had carried soldiers above the landscape for centuries to provide a high observation point superior to most geological features The French used a balloon for this purpose at the Battle of Fleurus in 1794 and by the American Civil War military hydrogen balloons saw frequent use filled from wagons generating hydrogen from iron filings and sulfuric acid The balloonist Thaddeus Lowe persuaded President Abraham Lincoln to use the airships for observation communicating troop movements to the ground with a telegraph wire Lowe himself reported A hawk hovering above a chicken yard could not have caused more commotion than did my balloons when they appeared before Yorktown Holmes 2013 251 The Confederates agreed with this assessment At Yorktown when almost daily ascensions were made our camp batteries field works and all defenses were plain to the vision of the occupants of the balloons The balloon ascensions excited us more than all the outpost attacks Indeed with advances in dirigible technology many military thinkers and even aeronautical enthusiasts believed that blimps would remain the chief military aerial asset more or less forever These men thought airplanes would play a secondary role at best and that they might even prove a uselessly expensive gimmick soon to fade back into obscurity leaving the majestic bulk of the dirigible as sole master of the skies Early Balloons and Airships The History of the City s Underground Ossuaries and Burial Network looks at the
