*Derrida, Kristeva, and the Dividing Line* Juliana De Nooy,1998 This volume traces the modern critical and performance history of this play one of Shakespeare's most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory      *American Domesticity* Kathleen Anne McHugh,1999-03-25 From the cult of domesticity to the Semiotics of the Kitchen housekeeping has been central to both constructing and critiquing the role of women in American society Frequently domesticity's style has been to make invisible the labor that produces it allowing woman to be asserted or argued about in universal terms that downplay race class and material relations American Domesticity considers this relationship in representations of domesticity and domestic labor over the last two centuries in didactic cinematic and feminist texts While the domestic is usually conceived of as the antithesis of the public economical and political Kathleen McHugh demonstrates how domestic discourse established the terms within which the most crucial national issues the market economy universal white male suffrage slavery the construction of racial difference consumerism spectatorship desire and even feminism were conceived assimilated and understood Beginning in the nineteenth century the book investigates the historical roots of domestic labors invisibility in widely circulated didactic housekeeping manuals written by Lydia Child Catherine Beecher Mary Pattison and Christine Frederick It then considers how pedagogical discourses became entertainment discourses their focus shifting from the silent era of film to the twilight of the classical period The book concludes with an examination of the return of a pedagogical impulse within feminist film production concerning domesticity comparing it to the concurrent rise of feminist film theory in the academy Looking at this wide range of print and film texts McHugh traces the outlines of a discourse of domesticity that claims to be private and universal but instead brokers difference within the public sphere      *Worlds Between* Leonore Davidoff,1995 *Worlds Between* presents a series of pioneering essays by Leonore Davidoff which together constitute nothing less than an urgent reappraisal of our understanding of the relationship between gender and history Among the topics discusses are the positions of servants and wives in Victorian and Edwardian England the relationship between home and community in English society the changing structure of housework the role of family relationships and the reflections on the role of the concepts of the public and the private developed through the work of feminist historians For over two decades Davidoff has been at the forefront of the reexamination of femininity and masculinity in history This volume which brings together her most important writings over this period as well as several unpublished essays will provide a necessary and important addition to the existing literature      *Redefining Gender in American Impressionist Studio Paintings* Kirstin Ringelberg,2017-07-05 Were late nineteenth century gender boundaries as restrictive as is generally held In *Redefining Gender in American Impressionist Studio Paintings* Work Place Domestic Space Kirstin Ringelberg argues that it is time to bring the current re evaluation of the

notion of separate spheres to these images Focusing on studio paintings by American artists William Merritt Chase and Mary Fairchild MacMonnies Low she explores how the home based painting studio existed outside of entrenched gendered divisions of public and private space and argues that representations of these studios are at odds with standard perceptions of the images their creators and the concept of gender in the nineteenth century Unlike most of their bourgeois contemporaries Gilded Age artists whether male or female often melded the worlds of work and home Through analysis of both paintings and literature of the time Ringelberg reveals how art history continues to support a false dichotomy that in fact paintings that show women negotiating a complex combination of professionalism and domesticity are still overlooked in favor of those that emphasize women as decorative objects Redefining Gender in American Impressionist Studio Paintings challenges the dominant interpretation of American and European Impressionism and considers both men and women artists as active performers of multivalent identities
