## **Disabled God Toward A Liberation Theology Of Disability:**

*The Disabled God* Nancy L. Eiesland, 1994-09-01 Draws on themes of the disability rights movement to identify people with disabilities as members of a socially disadvantaged minority group rather than as individuals who need to adjust Highlights the hidden history of people with disabilities in church and society Proclaiming the emancipatory presence of the disabled God the author maintains the vital importance of the relationship between Christology and social change Eiesland contends that in the Eucharist Christians encounter the disabled God and may participate in new imaginations of wholeness and new embodiments of justice

*The Disabled God Revisited* Lisa D. Powell, 2023-05-18 Lisa D Powell strengthens and amplifies the claim that God is disabled made by Nancy Eiesland in her ground breaking book *The Disabled God* 1994 She offers an alternative understanding of the doctrine of God and the Trinity resulting in a God who is not autonomous and utterly independent According to this view God's triune identity is established in God's decision for covenant and thus creation is a requirement for the fulfillment of God's nature not only is the Son always anticipating full embodiment and human nature but more specifically is eternally anticipating an impaired body Powell argues that God is not only interdependent within the immanent Trinity but God experiences real dependency risk and vulnerability from God's original self determination Powell revisits Eiesland's claim about Christ's resurrected body and her conclusions about eschatological embodiment arguing that it is the able body that does not persist eschatologically but all humanity journeys toward ever more transparency vulnerability and interdependency as the Body of Christ

*Theology, Disability and Sport* Nick J. Watson, Kevin Hargaden, Brian Brock, 2020-01-24 This ground breaking book provides fascinating insights into the fast emerging body of research that explores the relationship between sport theology and disability within a social justice framework In the shadow of two major sport faith events that fore fronted the theology of disability sport the Vatican's international conference Sport at the Service of Humanity and the Inaugural Global Congress on Sports and Christianity York St John University UK at which Dr Brian Brock led a thematic strand on the topic this book provides a foundation for further research and practice This text is a timely and important synthesis of ideas that have emerged in two previously distinct areas of research i disability sport and ii the theology of disability Examples of subjects addressed in this text include elite physical disability sport Paralympics intellectual disability sport Special Olympics equestrian sport church sport and disability and theologies of embodiment competition and mercy This book written by leaders in their respective fields begins a critical conversation on these topics and many others for both researchers and practitioners The chapters originally published in the *Journal of Disability and Religion and Quest*

[Disability Inclusion in Africa](#) Madleina Daehnhardt, Nina G. Kurlberg, Sas Conradie, Emmanuel Murangira, 2024-10-31 Despite recent signs of change people living with some form of disability continue to face discrimination marginalization and exclusion from full participation in public life even within the church In Africa particularly those living with disabilities are often subject to stigma abuse and neglect attitudes which can

stem from misleading theologies Bringing together experts from a range of disciplines this collection of essays fills a longstanding need for scholarship on disability theology in African theological institutions Contextually engaging with challenging topics such as the perception of disability as punishment for sins and the doctrine of imago Dei in light of disability readers are encouraged to critically reflect on theological understandings and approaches that cause harm instead of promoting disability inclusion This vital work is a step towards a theology of inclusion and to fostering more liberative holistic and life giving beliefs attitudes and behaviours towards disability within the contexts of church and society today

**Receiving the Gift of Friendship** Hans S. Reinders, 2008-04-14 Does what we are capable of doing define us as human beings If this basic anthropological assumption is true where can that leave those with intellectual disabilities unable to accomplish the things that we propose give us our very humanity Hans Reinders here makes an unusual claim about unusual people those who are profoundly disabled are people just like the rest of us He acknowledges that at first glance this is not an unusual claim given the steps taken within the last few decades to bring the rights of those with disabilities into line with the rights of the mainstream But he argues that cannot be the end of the matter because the disabled are human beings before they are citizens To live a human life properly he says they must not only be included in our institutions and have access to our public spaces they must also be included in other people's lives not just by natural necessity but by choice Receiving the Gift of Friendship consists of three parts 1 Profound Disability 2 Theology and 3 Ethics Overturning the commonsense view of human beings Reinders's argument for a paradigm shift in our relation to people with disabilities is founded on a groundbreaking philosophical theological consideration of humanity and of our basic human commonality Moreover Reinders gives his study human vividness and warmth with stories of the profoundly disabled from his own life and from the work of Jean Vanier and Henri Nouwen in L'Arche communities

*Controversies in Contemporary Religion* Paul Hedges, 2014-09-09 Religious or spiritual beliefs underpin many controversies and conflicts in the contemporary world Written by a range of scholarly contributors this three volume set provides contextual background information and detailed explanations of religious controversies across the globe *Controversies in Contemporary Religion* Education Law Politics Society and Spirituality is a three volume set that addresses a wide variety of current religious issues analyzing religion's role in the rise of fundamentalism censorship human rights environmentalism and sustainability sexuality bioethics and other questions of widespread interest Providing in depth context and analysis far beyond what's available in the news or online this work will enable readers to understand the nature of and reasons for controversies in current headlines The first volume covers theoretical and academic debates the second looks at debates in the public square and ethical issues while the third examines specific issues and case studies These volumes bring detailed and careful debate of a range of controversies together in one place including topics not often covered for example how religions promote or hinder social cohesion and peace the relationship of religions to human rights and the intersection of Buddhism and violence Written by a range of
