Disappearing Acts Spectacles Of Gender And Nationalism In Argentinas Dirty War:

Disappearing Acts Diana Taylor, 1997 Taylor uses performance theory to explore how public spectacle both builds and dismantles a sense of national and gender identity Here nation is understood as a product of communal imaginings that are rehearsed written and staged and spectacle is the desiring machine at work in those imaginings Taylor argue that the founding scenario of Argentineness stages the struggle for national identity as a battle between men fought on over and through the feminine body of the Motherland She shows how the military s representations of itself as the model of national authenticity established the parameters of the conflict in the 70s and 80s feminized the enemy and positioned the public limiting its ability to respond

Resonant Violence Kerry Whigham, 2022-02-11 From the Holocaust in Europe to the military dictatorships of Latin America to the enduring violence of settler colonialism around the world genocide has been a defining experience of far too many societies In many cases the damaging legacies of genocide lead to continued violence and social divisions for decades In others however creative responses to this identity based violence emerge from the grassroots contributing to widespread social and political transformation Resonant Violence explores both the enduring impacts of genocidal violence and the varied ways in which states and grassroots collectives respond to and transform this violence through memory practices and grassroots activism By calling upon lessons from Germany Poland Argentina and the Indigenous United States Resonant Violence demonstrates how ordinary individuals come together to engage with a violent past to pave the way for a less violent future
