Disarmament Inspection Under Soviet Law:

Disarmament Inspection Under Soviet Law Harold Joseph Berman, Peter B. Maggs, 1967 **Control over Compliance with International Law** William E. Butler, 2024-12-09 Of all the Issues on the East West agenda none is more vital to the perestroika processes on the international plane than confidence on all sides that international legal obligations assumed will be wholly complied with Increasingly such confidence requires particular often intrusive machinery to ensure compliance to the satisfaction of the parties concerned The revolution under perestroika is that in East West relations the former prognosts now accept that machinery is required and the deliberations have moved onto the level of why how much and how it can best be accomplished The contributions to the present volume continuing and developing earlier Anglo Soviet symposia on public international law addresses the topic for the first time in a framework that transcends arms control and disarmament *Verification* Allan S. Krass, Stockholm International Peace Research Institute, 2020-11-19 Originally published in 1985 the level of anxiety and suspicion between the USA and the USSR had rarely been higher Many advocates of arms control believed that effective verification would reduce tensions and lessen the risk of war This book analyses the two main issues of verification One is technological what are the present capabilities of various verification techniques and what is their potential The devices and methods currently employed by the two major nuclear powers and by international organizations to monitor the compliance of states with arms control or disarmament treaties are examined The second issue is political how do US and Soviet approaches compare what are the roles of domestic and bureaucratic politics and on what criteria can a workable standard of adequacy be based In short how much is enough Although the study concludes that a number of significant arms control measures can already be adequately verified modern weapons are becoming more mobile and it is becoming easier to conceal them There is a danger that the ability to hide weapons will outstrip the ability to find them Verification cannot promise to detect all violations a workable standard of adequacy in verification must derive from the ability to detect militarily significant violations *International Law in Comparative Perspective* William E. Butler, 2024-11-04 **Soviet Legal Bibliography** Harvard Law School. Library, 1965 Annotated bibliography of materials published in the USSR since 1917 on aspects of soviet law contained in the harvard law school library as of january 1 1965 lists dictionarys encyclopaedias bibliographys etc and covers legislation comments regulations constitutions arbitration supreme soviet sessions communist political party conferences census reports comparative law private sector and international law jurisprudence civil law administrative law criminal law etc **Peace Research Abstracts Journal** , 1968 *ABA Journal* , 1967-11 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association *The Library Catalogs of the Hoover Institution on War, Revolution and Peace, Stanford University* Hoover Institution on War, Revolution, and Peace.
