Discipleship As Political Responsibility:

Discipleship as Political Responsibility John Howard Yoder, 2003-10-09 John Howard Yoder went to Europe after the Second World War as a young volunteer Yoder worked as an aide in a children's home in Elsass France and completed his doctorate under Karl Barth in Basel Switzerland Because of his incomparably clear and sharp thinking he quickly became one of the most sought after speakers on pacifism at seminars as he worked towards an Anabaptist renewal of the church In this context Yoder succeeded in reopening the theological debate on Christians and political responsibility with the larger church to which persecution had put an end 400 years earlier Biblical scholar Timothy J Gedder translated two of these lectures originally given in Germany as a resource to understand Yoder's invitation to begin an exploratory journey that leads to Jesus Christ's peace church

The Trace of the Face in the Politics of Jesus John Patrick Kooyes, 2013-06-26 Taking its cue from Mark Naison's regret that John Howard Yoder refrained from a fuller engagement with the Western philosophical tradition this book is an effort to explore the possibilities inherent in that conversation It develops a dialogue between Yoder and the French philosopher Emmanuel Levinas The placement of Yoder's work alongside of Levinas' conception of otherness cashes out the embedded hope in Naison's remarks by demonstrating the continuing relevancy of Yoder's thought for current Christian sociopolitical discourse This book is especially aimed at those who seek to continue exploring the themes and ideas of John Howard Yoder

Beyond Suspicion Paul G. Doerksen, 2010-01-01 The modern era includes a two-fold tradition of radical suspicion the suspicion that politicians corrupt morality and that politics is corrupted by theology However such a view has been challenged in recent theological thought which seeks to move beyond such suspicion to recover a constructive role for political theology By pursuing a critical comparison of the political theologies of John Howard Yoder and Oliver O'Donovan The present work shows how post-Christendom Protestant political theology has attempted to move beyond suspicion without putting forward some hidden attempt to reassert a contemporary version of Christendom O'Donovan's political theology written from within the British Anglican tradition is a bold project in which he attempts to push back the horizons of commonplace secularist politics and open it up theologically a move that he believes will offer crucial resources for thinking about justice And The common good A related response is presented by Yoder who As an American Mennonite represents Anabaptism From this more marginal ecclesial location Yoder's thought stands both as a challenge to regnant liberal notions of the relation of church and state and as an important interlocutor for O'Donovan's political theology Yoder argues that political theology entails a particular kind of focus on the church where the very shape of the church in the world is a public witness For The world and not first of all a withdrawal from the world The critical comparison brings to view areas of significant convergence and divergence in understandings of the Hebrew Scriptures as well as the New Testament O'Donovan and Yoder's respective interpretations of Christendom are also fundamentally divergent As are their views on the legitimacy of the use of force by government clearly seen in O'Donovan's support of Just War Tradition and Yoder's

promotion of Messianic Pacifism *Struggles for Shalom* Laura Brenneman, Brad D. Daryl Charles, 2008-04-14 J Daryl Charles argues that a traditional metaphysics of natural law lies at the heart of the present reconstructive project and that a revival in natural law thinking is of the highest priority for the Christian community as we contend in rather than abdicate the public square Nowhere is this more on display than in the realm of bioethics where the most basic moral questions human personhood human rights versus responsibilities the reality of moral evil the basis of civil society are being debated from publisher description **Power and Practices** Jeremy Bergen, Anthony G. Siegrist, 2009-08-18 A new generation engages the theology of John Howard Yoder These essays wrestle with questions of power and its implications for social practices including policing nonviolence sexism governmentality dialogue political critique theological construction and the work of inheriting a theological tradition The authors and their approaches to Yoder s work are diverse They bring a wide array of backgrounds to the task from activism and church leadership to advanced studies and the professorate What each has in common is an instinct to place Yoder s work into new conversations and to examine it through new lenses Authors include Chris K Huebner Nekeisha Alexis Baker Paul Martens John C Nugent and Paul C Heidebrecht **Being Human, Becoming Human** Brian Gregor, Jens Zimmermann, 2012-05-31 What does it mean to be human The German theologian Dietrich Bonhoeffer thought deeply about this questions out of a desire to understand the importance of Christ and the incarnation for modern culture His conviction that Christ died for a new humanity is at the core of his theological anthropology This collection assembles a distinguished and international group of scholars to examine Bonhoeffer s understanding of human sociality From the introduction of his dissertation *Sanctorum Communio* where he notes the social

intention of all the basic Christian concepts to his final writings in prison where he describes Christian faith as being for others the theme of human sociality runs throughout Bonhoeffer's works This volume examines Bonhoeffer's rich resources for thinking about what it means to be human to be the church to be a disciple and to be ethically responsible in our contemporary world Being Human Becoming Human is vital reading for Bonhoeffer scholars as well as for those invested in theological debates regarding the social nature of human beings

Politics in Friendship: A Theological Account Guido de Graaff, 2014-09-25 Guido de Graaff explores the political dimension and significance of friendship arguing that its specific contribution lies not only in its theological approach but also in its particular focus distinguishing the political from the social and or civic The book's explorations are framed around a particular story of friendship the story of Bishop George Bell and German theologian Dietrich Bonhoeffer Drawing on Hannah Arendt and Oliver O'Donovan de Graaff argues that Bell and Bonhoeffer's story can be read as one of friends assuming the responsibility of political judgment in an emergency situation their story casts doubts on secular politics as the primary context for interpreting the friends judgments Thus the book provides a more comprehensive account of the story also interpreting it against the background of the life of the church with special attention to John 15 and Romans 12 De Graaff concludes by showing how a theological account is vital for discerning the distinct politics of the church including opportunities for Christian engagement in secular politics

Christians Organizing for Political Service James W. Skillen, 1980 The Mennonite Quarterly Review, 2006 **Symposium on Law & Politics as Vocation**, 2005 The Saturday Review of Politics, Literature, Science and Art, 1874 **The Saturday Review of Politics, Literature, Science, Art, and Finance**, 1874 **Journal of Mennonite Studies**, 2004 *THE VIETNAM WAR: CHRISTIAN PERSPECTIVES* William B. Erdmans, 1967 **Catholic Identity and the Laity** Tim Muldoon, 2009 This work features original essays which explore the role of the laity within the Catholic Church and the nature of Catholic identity

Personal Religion and the Life of Fellowship William Temple, 1926 *First Things*, 2006-06 **The Ecumenist**, 1982 *From the Heart of the American Church* David J. O'Brien, 1994
