Practical Remote Jobs No Experience Ideas For Teachers:

The Practice of International Development Jerrold Keilson, Michael Gubser, 2017-09-22 Development analysts tend to give short shrift to the seemingly minor bureaucratic hitches faced by practitioners those who design manage implement and evaluate aid projects Often critical of foreign aid either for its apparent ineffectiveness at alleviating poverty or its purported neocolonial implications the academic literature rarely acknowledges the experiences and pressures faced by practitioners themselves as they implement aid funded development projects the meetings paperwork negotiations site visits financial transactions logistical arrangements interviews program activities and beneficiary interactions that keep projects running And yet the impact of aid projects and indeed the impact of development itself often grows out of the daily activities and personal interactions of development practitioners This unique book considers challenges from the perspective of development practitioners who confront technical managerial political theoretical and moral quandaries on a daily basis With chapters written by expert practitioners on different aspects of design and management of international development activities this book examines real issues and navigates the often contradictory demands of local development needs including international donor imperatives limited financial resources time information and assurance of results the competing pulls of administrative efficiency and the desire to alleviate suffering It also gives readers access to the crucial but little heard voices of those who spend their professional lives designing and managing foreign aid projects offering insight into what did or did not work on projects they have managed implemented or evaluated These insights do not seek to identify universally right or wrong ways of doing development instead they highlight pros and cons associated with various approaches and decisions This book provides valuable insights for students and others interested in a development career encourages practitioners to engage in reflection and persuades researchers to further consider the influence of practice on project success or failure

Future-Proofing Teacher Education Sarah Gravett, Nadine Petersen, 2022-07-22 This book presents a variety of perspectives on teacher education for a fast changing world It deepens the discourse on teacher education and specifically considers teacher education in light of the technological advancements of the Fourth Industrial Revolution as well as education in times of uncertainty Drawing on examples from South Africa and showcasing international authors the book offers a nuanced evaluation of how teacher education might adapt for the future It explores the tension between the perennial in education and the unpredictability of the future and asks the question of how teacher education can contend with these tensions and how teachers can prepare for unexpected circumstances Chapters draw on the science of learning and foreground lessons learned from the abrupt move of teacher education online due to the COVID 19 pandemic The book invokes these themes to reimagine and strengthen teacher education for the future presenting reports on research case studies and theoretical stances Future Proofing Teacher Education explores what is relevant in teacher education in the 21st century and will be a key reading for researchers academics and post graduate students of teacher education technology in
