Virtual Mentoring for Teachers: Online Professional Development Practices Keengwe, Jared, 2012-08-31 A major investment in professional

development is necessary to ensure the fundamental success of instructors in technology integrated classrooms and in online courses. However, while traditional models of professional development rely on face to face instruction, online methods are also gaining traction. Viable means for faculty development include Virtual Mentoring for Teachers Online Professional Development Practices, which offers peer reviewed essays and research reports contributed by an array of scholars and practitioners in the field of instructional technology and online education. It is organized around two primary themes: professional development models for faculty in online environments and understanding e Learning and best practices in teaching and learning in online environments. The objective of this scholarship is to highlight research based online professional development programs and best practices models that have been shown to enhance effective teaching and learning in a variety of environments.

Realising Exemplary Practice-Based Education Joy Higgs, Dale Sheehan, Julie Baldry Currens, Will Letts, Gail M. Jensen, 2013-02-11. For educators, scholars, practitioners and researchers, this book offers an opportunity to explore and engage with practice based education theories and concepts in real life teaching spaces. It is a place to see theory embodied and situated within PBE practices. It is also an opportunity to see how educators and scholars from other disciplines are applying theory to understand teaching and learning in their particular area. This volume provides an opportunity for readers to deepen their understanding of practice based education and broaden and critically appraise their strategies for engaging with practice based education theory. And it provides a means of extending theory and realising new practice based education theory through the lens of exemplary practice. There are three sections in the book: Section 1 Practice based education for life and work; Section 2 Practice based education in action; Section 3 Practice based education realisations. **Digital Skill**

Development for Industry 4.0 P Kaliraj, G Singaravelu, T. Devi, 2024-09-30. The Fourth Industrial Revolution, Industry 4.0, is changing the world, and digital transformation technology tools have impacted every walk of life. The nature of work and careers is changing fast, and in the future, the right skills will be prized over academic qualifications. Students must develop various skills, especially technology skills, to become the workforce of the future; the onus of developing these skills falls on educational institutions. The development of innovation and ideation skills in students is a must for them to productively contribute to a future economy. They should have the capability to translate ideas into solutions, products, and systems that are scalable, practically feasible, and adaptable. To prepare students for this digital world, Digital Skill Development for Industry 4.0 contains chapters on developing Professional skills, cognitive learning, Critical thinking skills among modern learners, Motivation and student engagement, Invoking interest of students, Student engagement in e learning, Contextual learning, Experimental learning, Multidisciplinary learning. The book is written for the academic and administrative community of universities and colleges who intend to equip their modern learners with the skills of Industry 4.0. It is also useful as a reference for undergraduate and postgraduate courses as well as doctoral programs. The book can also serve as a comprehensive reference guide for researchers in the development of tools incorporating new skills and technologies.
