## **Proven Ai Blog Writer Guide For Seniors:**

Exploring the Intersection of Artificial Intelligence and Journalism Santosh Kumar Biswal, Anand J. Kulkarni, 2024-02-02

This book studies the role of Artificial Intelligence AI in journalism. It traces the origin, growth, and development of the media and communication industry in the globalized world and discusses the implications of technologies such as Augmented Reality, Virtual Reality, and Extended Reality which have helped foster a communication revolution across the globe. The volume discusses technology-centric media theories in the context of AI and examines if AI has been a boon or bane for data journalism. It also looks at artificial intelligence in beat reporting and citizen journalism and analyses the social, cultural, and ethical implications of artificial intelligence-driven journalism and the ethical concerns arising from it. An important contribution this book will be indispensable for students and researchers of media studies, communication studies, journalism, social media technology studies, and digital humanities. It will also be useful for media professionals.

**Artificial Intelligence in Our Language Learning Classrooms** Louise Ohashi, Mary Hillis, Robert Dykes, 2025-11-21

Artificial Intelligence in Our Language Learning Classrooms brings together leading researchers and practitioners exploring the pedagogical, ethical, and emotional dimensions of generative AI (GenAI) in second language (L2) education. Across two major sections, L2 skill development and broader educational perspectives, contributors offer theory-informed and practice-oriented insights into how GenAI can transform language teaching and learning. Topics include conversational AI and chatbots, writing development, extensive reading, pragmatics, instruction, ethics, emotions, and teacher-led inquiry. Through a balance of optimism and critical reflection, this volume situates AI integration within established educational frameworks, supporting teachers as they navigate the rapidly evolving technological landscape. The book emphasizes teacher agency, responsible innovation, and the centrality of human connection in AI-enhanced classrooms. By combining empirical research, case studies, and reflective narratives, it addresses both opportunities and challenges in using GenAI tools for language education. This comprehensive resource is essential reading for language teachers, researchers, and teacher educators seeking to build informed, ethical, and pedagogically grounded approaches to AI integration in the L2 classroom.
