Shores, 2025-06-16 Author Cara Shores provides a three tiered instructional framework that helps educators establish integral baselines of performance for students offering strategies for assessment intervention and remediation to ensure student growth This book guides educators with step by step tools and methods for differentiated instruction and lesson planning addressing the diverse learning needs of all students K 12 special education and general education teachers and instructional coaches can use this book to Increase students learning progression through instruction intervention and remediation Explore research proven models and methods of instruction that promote standards mastery for students with disabilities Better assess and collect data on students learning to measure progress Incorporate standards mastery into individualized education program goals Implement highly effective instruction in all settings to maximize learning for students with disabilities Contents Introduction Chapter 1 Understanding the Tiered Instructional Framework Chapter 2 Exploring Tier 1 Instruction Specially Designed for Students With Disabilities Chapter 3 Discovering Why We Always Begin With Data Chapter 4 Focusing on Instruction Through Essential Standards and Learning Progressions Chapter 5 Choosing and Providing Appropriate Supports Chapter 6 Co Teaching for Greatest Impact Chapter 7 Differentiating Instruction Through Tiered Assignments Chapter 8 Looking at the Structure for Tiers 2 and 3 for Students With Disabilities Epilogue References and Resources Index **Surveillance Education** Nolan Higdon, Allison Butler, 2024-08-02 Surveillance

Education explores the pervasive use of digital surveillance technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these

fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech. In doing so the authors draw upon interviews from K 12 and higher education students teachers and staff civil rights and technology lawyers and educational technological programmers. The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education. This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education.
