**ChatGPT eBook** GURMEET SINGH DANG, *Understanding the Technology Behind Online Offending* Christopher Wise, Jennifer Bamford, 2025-02-25 *Understanding the Technology Behind Online Offending: A Guide for Professionals in the Criminal Justice System* is a non-technical explanation of online offences by a cybersecurity expert bridging the gap between the high-tech world of cybercrime and the non-technical professionals working within it. The book begins by equipping the reader with a foundational understanding of how the internet works before exploring the various ways that people can exploit the Internet to commit crimes. The reader is then introduced to some of the sophisticated ways that individuals may evade detection before we explore the organisations fighting to prevent and capture those offending online. The book includes a contributory chapter from solicitors at Stone King LLP to help the reader understand how the law is evolving to prosecute offenders. There is a further contributory chapter from psychologist Dr Ruth J. Tully who discusses psychological risk assessment with those who offend online. The book concludes with important chapters looking at how professionals can keep themselves safe online and future directions of the internet. The book's intended audience includes all professionals who work with those who commit online offences such as psychologists, solicitors, social workers, probation officers, and police officers. The book is also suitable for those in training or graduate education.

**Introduction to Information Systems** R. Kelly Rainer, Brad Prince, 2021-08-17 *Introduction to Information Systems* 9th Edition teaches undergraduate business majors how to use information technology to master their current or future jobs. Students develop a working understanding of information systems and information technology and learn how to apply concepts to successfully facilitate business processes. This course demonstrates that IT is the backbone of any business, whether a student is majoring in accounting, finance, marketing, human resources, production, operations management, or MIS.
