**Resources in Education**, 1982 Sexual Offenders and the Criminal System Barry Maletzky, 2025-05-19 This book demonstrates that the criminal justice system in the United States has allowed the natural emotions surrounding sexuality to allow the minority of sexual offenders who are truly dangerous to be merged with the majority of offenders who pose little if any risk to be at large Such aggregations force the system to exhaust resources while ignoring the burgeoning research into the assessment and treatment of such offenders Relying on research in the literature combined with his many years of experience Maletzky details how the system operates at present and offers suggestions for change to re align what we know about sexual offending with how such offenders might be better managed within the criminal justice system The work provides an overview of the process from the original apprehension of sexual offenders through the determination of their guilt their detention in prisons or jails and their supervision following incarceration Allowing scientific advances to inform decisions in these matters will not only enhance public safety but will spare unnecessary expense save taxpayers money and actually serve to prevent future recidivism among such offenders This work is thought provoking for attorneys prosecutors legal assistants and law clerks members of the judiciary those who teach or are students of the administration of justice those who assess or treat sexual offenders and offenders and their families affected by the system

**School-based nutrition and physical activity interventions among children and adolescents** Shooka Mohammadi, Hui Chin Koo, Ai Kah Ng, 2025-04-07 The increasing prevalence of obesity sedentary lifestyle and unhealthy eating habits among children and adolescents is very concerning The main risk factors that lead to

childhood weight problems and obesity are an increase in meals eaten outside of the home a rise in access to high fat foods high consumption of energy packed foods a sedentary lifestyle or skipping breakfast This is concerning as obesity inadequate physical activity PA and unhealthy diets are associated with chronic diseases Therefore promoting healthy eating and sufficient PA among children and adolescents has become a research priority and an important public health concern The World Health Organization WHO considers schools a critical setting for improving public healthy eating and decreasing the risk of unhealthy weight gain in childhood In particular environmental interventions are recommended as they are more likely to lead to behavioural change Thus promoting adequate PA and a healthy diet among school aged children is essential
