 Dramburg, 2025-05-23 Several hundred million citizens suffer from allergic diseases ranging from watery eyes to life
 threatening anaphylactic shock In addition to the individual reduction of quality of life allergies have an impact on workplace
 efficiency and healthcare budgets Although new developments of diagnostic assays are advancing quickly their
 implementation in clinical routine is challenged by several barriers This is very evident in the EU where the gap between
 technological progress and modern diagnosis is rapidly growing Digital Health tackles this challenge by providing novel tools
 supporting allergy diagnosis and treatment through internet platforms medical devices smart phone apps telemedicine tools
 etc The integration of Digital Health procedures and tools in the management of allergic diseases will allow personalized
 diagnostic and therapeutic approaches with 24 7 interactivity between patients and professional healthcare It will enable the
 delivery of faster relevant healthcare support via real time accessibility of key information for specialists at primary health
 care centers pharmacies and the patient s home Digital Allergology From Theory to Practice is unique in comprehensively
 approaching Digital Allergology starting with the general frame to more specific parts on specific allergic diseases public
 health as well as research and perspectives from several countries Allergology being transversal and covering dozen sub
 specialty areas the list of authors each one with specific expertise in Digital Health applied to his her sub area of interest is
 heterogeneous same sub areas will be seen from different perspectives Built for allergists and other clinicians with a strong
