Update #1

A newsletter is a tool used by businesses and organizations to share relevant and valuable information with their network of customers, prospects and subscribers. You can also share industry news or blog posts or inform prospective clients about your discounts and offers.

Update #2

Newsletters are better suited to educating and entertaining your subscribers than they are for making a sale. Receiving a newsletter should feel like getting an update from an interesting and helpful friend rather than a hard sell from a pushy salesperson.

Update #3

There are 2 types of company newsletters: internal and external. The internal newsletter is aimed at communicating news and updates within the company while the external one is focused on providing detailed information about the latest activities and news about the company.
