The New Workplace Radostina Purvanova, Alanah Mitchell, 2025-07-18 The COVID pandemic forced most workers to shift from the work office to the home office. As we navigate this new normal, organizations must decide on their post-pandemic workplace strategy: office, forward remote, first, or hybrid. Meanwhile, employees have also developed their preference, whether working from home, the office, or a combination of both. This book helps leaders align their workplace strategy with employee preferences. It helps them understand the different types of employees they have and how to engage employees whose work preferences may or may not align with that of the organization. Through in-depth interviews with both employees and executives, the authors identify nine distinct employee personas and present findings about the personas' demographics, specific behaviors, attitudes, preferences, and motivations. They then offer practical advice on how organizations can leverage these personas to support their chosen workplace strategy. Whether you are looking to identify which employee personas fit best within your company, understand the personas on your team, explore how different personas interact, or assess the costs of misalignment, this book is an essential resource on balancing organizational strategy and employee well-being.
