Rising Stars in Human-Robot Interaction Bilge Mutlu,Ginevra Castellano,James Everett Young,Séverin Lemaignan,Adriana Tapus,2022-08-11

Youth Cultures, Responsive Education, and Learning Robertson, Margaret E.,2023-09-18 Today s youth find themselves navigating an uncertain terrain marked by shifting societal foundations History tradition and geopolitics were once steadfast guides but now seem elusive or ineffective The pandemic identity crises and environmental upheavals have blurred the lines of reality leaving younger generations in pursuit of sustainable futures The social bonds that once held us together are weakening and established socio political and religious frameworks no longer offer clear direction We are at a crossroads faced with a pivotal question can we provide the necessary guidance for future generations to navigate this tumultuous era and forge a brighter future Youth Cultures Responsive Education and Learning emerges as a timely and thought provoking compass for understanding and addressing the challenges confronting today s youth Rather than prescribing a singular correct path forward it offers a diverse and comprehensive exploration of the past present and future of youth culture This book is indispensable for academic scholars and researchers seeking a thorough examination of the dynamic landscape of youth cultures responsive education and learning It serves as a valuable resource for those dedicated to understanding and addressing the intricate challenges that

confront our youth in an ever evolving world **Artful AI in Writing Instruction** Brett Vogelsinger, 2025-05-14 Discover strategies to use AI thoughtfully in every stage of the writing process without compromising creativity or critical thinking Feeling conflicted about integrating artificial intelligence AI into your writing instruction You're not alone In a world where AI generated text can seem like a writing teacher's enemy incorporating it into writing instruction may feel like an act of betrayal The advent of generative AI might feel like one more thing eroding students' capacity for deep thinking Artful AI in Writing Instruction offers strategies and lessons for middle and high school teachers to harness AI in a positive way integrating it into the writing process and evaluating the ethics of its usage Written by a full time high school teacher Brett Vogelsinger the book focuses on evergreen principles and ideas rather than specific AI tools providing concrete steps and lessons that teachers can implement without being technology experts Acknowledging the varying perspectives of teachers on AI in writing instruction from skepticism to enthusiasm Brett offers a human centered considered and ethical approach to using generative AI in the classroom Demonstrating how AI can be used artfully in the classroom to enhance students' writing skills and foster reflection on the writing process this book Provides standards aligned lessons that detail how AI can support instruction and assist students at each step of the writing process from prewriting through publishing Emphasizes how to use AI tools to mine authentic human ideas and enhance creativity in the classroom Aims to help teachers build a healthy relationship with AI technology and use it thoughtfully in their writing instruction Includes chapter features such as quotes from esteemed writers real teacher and student voices cautionary notes and Bot Thoughts entries of example AI output Artful AI in Writing Instruction is a book that explores technology with humility critiquing its drawbacks and harnessing its strengths in an effort to guide teachers on how to use AI to help students grow their thinking and their skills rather than bypassing that development *The Shape of Thought* Richard H.R. Harper, 2025-11-14 Artificial intelligence AI consists of a dazzling set of computational tools that few fully understand From our cars to our homes to how we socialize and work AI is everywhere and makes life so much better It might irritate in some instances but mostly it helps Or it seems to Yet AI developers have an unusually narrow perspective on intelligence reducing all judgments to a calculus Machines excel at this form of intelligence but it is not how most people define the word While this narrowing has provided useful direction for the development of computers Richard Harper argues it also constrains what people are capable of When we reach for AI to help us unwind connect with others or even create art it's not analytical intelligence that we are after The human behaviours that AI seeks to supplement are shaped as much by mood morals indolence and interrelation as they are by calculation Drawing on three decades of inquiry Harper reveals that when we are misled about what AI cannot do we fail to see what it can The Shape of Thought shows how to break free from this narrow view By better understanding the many different things that people achieve with computers we can improve and diversify AI to allow for richer more beneficial human computer interaction Teaching the Future KHRITISH SWARGIARY, 2024-09-01 This book Teaching the Future Strategies for

Educating Generation Alpha and Beta in the Age of AI is designed to provide practical advice and actionable strategies for educators who are navigating this new landscape. It explores the characteristics and learning preferences of Generation Alpha and Beta, the role of AI in education, and the importance of developing future-ready skills. Additionally, it addresses the social and emotional needs of these students, the importance of parental involvement, and the need for continuous professional development for educators.
