Snake Oil uncovers rampant misleading claims about the capabilities of AI and describes the serious harms AI is already causing in how it's being built, marketed and used in areas such as education, medicine, hiring, banking, insurance and criminal justice. The book explains the crucial differences between types of AI, why organizations are falling for AI snake oil, why AI can't fix social media, why AI isn't an existential risk and why we should be far more worried about what people will do with AI than about anything AI will do on its own. The book also warns of the dangers of a world where AI continues to be controlled by largely unaccountable big tech companies. By revealing AI's limits and real risks, AI Snake Oil will help you make better decisions about whether and how to use AI at work and home.

[Paint and Programming](#) Rohan Agarwal, 2023-07-11 The software that changes the world will be human. While most software engineers focus on learning to code in languages like Python and Java, learning tools like AWS and keeping up with trendy tech like AI, there is an overlooked fact: code must be meaningful. It must be human. Your career must fulfill you and your products must fulfill your users. It's hard to achieve that. This book guides you through the thousands of years of history and philosophy of crafting meaning. In other words, art. We'll talk about Da Vinci, Picasso, Van Gogh and dozens of others. By the end, you will understand how simple paint on a canvas has resonated with the hearts and minds of millions, served Gods and Kings and sold for hundreds of millions of dollars. It is a curious phenomenon, isn't it? We will understand art deeper than any other engineer or developer. Through art, we will discover unconventional, mind-bending yet life-changing advice on writing amazing

code building valuable software and taking advantage of the latest technology like artificial intelligence And we will know how to be fulfilled and successful with our work in technology Author Rohan Agarwal is a FAANG software engineer published AI researcher and trained artist who exhibited in the Metropolitan Museum of Art The Billboard ,1929
