Transmedia Creatures Francesca Saggini, Anna Enrichetta Soccio, 2018-10-19 On the 200th anniversary of the first edition of Mary Shelley's *Frankenstein* Transmedia Creatures presents studies of *Frankenstein* by international scholars from converging disciplines such as humanities musicology film studies television studies English and digital humanities These innovative contributions investigate the afterlives of a novel taught in a disparate array of courses *Frankenstein* disturbs and transcends boundaries be they political ethical theological aesthetic and not least of media ensuring its vibrant presence in contemporary popular culture Transmedia Creatures highlights how cultural content is redistributed through multiple media forms and modes of production including user generated ones from below that often appear synchronously and dismantle and renew established readings of the text while at the same time incorporating and revitalizing aspects that have always been central to it The authors engage with concepts value systems and aesthetic moral categories among them the family horror monstrosity diversity education risk technology the body from a variety of contemporary approaches and highly original perspectives which yields new connections Ultimately *Frankenstein* as evidenced by this collection is paradoxically enriched by the heteroglossia of preconceptions misreadings and overreadings that attend it and that reveal the complex interweaving of perceptions and responses it generates Published by Bucknell University Press Distributed worldwide by Rutgers

University Press ***Artificial Intelligence for Learning*** Donald Clark, 2024-05-03 With Artificial Intelligence AI creating huge opportunities for learning and employee development how can learning professionals best implement the use of AI into their environment *Artificial Intelligence for Learning* is the essential guide for learning professionals who want to understand how to use AI to improve all aspects of learning in organizations This new edition debunks the myths and misconceptions around AI discusses the learning theory behind generative AI and gives strategic and practical advice on how AI can be used This book also includes specific guidance on how AI can provide learning support chatbot functionality and content as well as ideas on ethics and personalization This book is necessary reading for all learning practitioners needing to understand AI and what it means in practice

Clusters of Innovation in the Age of Disruption Engel, Jerome S., 2022-07-21 This book is about innovation ecosystems Clusters of Innovation COI and the Global Networks of Clusters of Innovation GNCOI they naturally form What is innovation and why is it important to us Innovation is nothing less than the ability for constructive response and adaptation to change The cause and catalyst for that change is frequently identified as technology and its unceasing pressure to improve on existing solutions and address unmet needs The last decade has painfully demonstrated that exogenous environmental shocks are also sources of change that call for innovative responses ranging from the obvious challenges such as global warming and Covid 19 to the more subtle social and political perturbations of our time ***Cyber Citizens*** Heidi Boghosian, 2025-06-24 A grounding exploration of how our online prowess shapes the very essence of democracy The electronic age compels us to confront the delicate balance between the convenience of constant connectivity and the

protection of personal privacy security and democracy itself Presented as a two fold concern of digital and civic literacy surveillance and privacy expert Heidi Boghosian argues that our fight to uphold democracy must extend to the online world As smart citizens our best chance of thriving in the digital era lies in taking care of our smart selves as diligently as we maintain our smart devices In the same way that smart devices can disclose private information when not adequately secured our online presence can lead to unintentional data exposure or identity theft That entails a commitment to learning digital literacy and cyber hygiene from the first moment we engage with technology Mastering the fundamentals of civics the rights and responsibilities of citizens rounds out the democratic assignment With AI and machine learning poised to play a transformative role in our 21st century lives we as humans have our own generative learning journey to master Drawing parallels between Americans and their smart devices Cyber Citizens sheds light on the delicate balance between connectivity and privacy to uphold a truly democratic society
