Social Capital: Life online in the shadow

of Ireland's tech boom Aoife Barry, 2023-04-27 A David and Goliath story about Ireland's role as prime real estate for the world's largest tech multinationals and the considerable impact it has had on us as individuals *Amelia, If Only* Becky Albertalli, 2025-06-10 Amelia Applebaum isn't in love with Walter Holland. He just happens to be her favorite moderately famous chaotically bisexual YouTuber. Who she just happened to invite to prom. But it's fine. No, for real. If you delete the post, it didn't happen. Okay, maybe her friends are right. She's slightly parasocially infatuated. But Amelia just knows sparks would fly if only she could connect with Walter for real. If only he would host a meet and greet. If only it were just a short road trip away. And if only Amelia could talk her best friends into making it the perfect last hurrah before graduation, even her newly single, always cynical guitar-toting best friend Natalie. One thing's for sure: All roads lead to butterflies. But what if Amelia's butterflies aren't for Walter at all?

The Hidden Psychology of Social Networks: How Brands Create Authentic Engagement by Understanding What Motivates Us Joe Federer, 2020-09-15 From the former Head of Brand Strategy at Reddit comes a proven and thought-provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy, and psychology, as well as more than a decade of hands-on experience, to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego, and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets: platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego, and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family, or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers. Fascinating and deeply compelling, *The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative, and in the end, deliver more effective marketing that provides value.
