**Money, Power, and AI** Zofia Bednarz, Monika Zalnieriute, 2023-11-30 In this ambitious collection Zofia Bednarz and Monika Zalnieriute bring together leading experts to shed light on how artificial intelligence AI and automated decision making ADM create new sources of profits and power for financial firms and governments Chapter authors which include public and private lawyers social scientists and public officials working on various aspects of AI and automation across jurisdictions identify mechanisms motivations and actors behind technology used by Automated Banks and Automated States and argue for new rules frameworks and approaches to prevent harms that result from the increasingly common deployment of AI and ADM tools Responding to the opacity of financial firms and governments enabled by AI Money Power and AI advances the debate on scrutiny of power and accountability of actors who use this technology This title is available as Open Access on Cambridge Core

**The Disengaged Teen** Jenny Anderson, Rebecca Winthrop, 2025-01-07 Our education systems are shortchanging far too many teenagers This book is brimming with insights on how to change that It s an engaging evidence based and practical read about how to develop a generation of lifelong learners Adam Grant 1 New York Times bestselling author of Hidden Potential and Think Again and host of the podcast Re Thinking A powerful toolkit for parents of both checked out and stressed out teens that shows exactly what to do and stop doing to support their academic and emotional flourishing Adolescents are hardwired to explore and grow and learning is mainly how they do this But a shocking majority of teens are disengaged from school simultaneously bored and overwhelmed This is feeding an alarming teen mental health crisis As kids get older and more independent parents often feel powerless to help But fear not there are evidence backed strategies to guide them from disengagement to drive in and out of school For the past five years award winning journalist Jenny Anderson and the Brookings Institution s global education expert Rebecca Winthrop have been investigating why so many children lose their love of learning in adolescence Now weaving extensive original research with real world stories of kids who transformed their relationships with learning they identify four modes of learning that students use to navigate through the shifting academic demands and social dynamics of middle and high school shaping the internal narratives about their skills potential and identity Resister When kids resist they struggle silently with profound feelings of inadequacy or invisibility which they communicate by ignoring homework playing sick skipping class or acting out Passenger When kids coast along consistently doing the bare minimum and complaining that classes are pointless They need help connecting school to their skills interests or learning needs Achiever When kids show up do the work and get consistently high grades their self worth can become tied to high performance Their disengagement is invisible fueling a fear of failure and putting them at risk for mental health challenges Explorer When kids are driven by internal curiosity rather than just external expectations they investigate the questions they care about and persist to achieve their goals Understanding your child s learning modes is vital for nurturing their ability to become Explorers Anderson and Winthrop outline simple yet

counterintuitive parenting strategies for connecting with your child tailoring your listening and communication styles to their needs igniting their curiosity and building self awareness and emotional regulation      *Artificial Intelligence for HR* Ben Eubanks, 2022-01-03 Artificial intelligence is changing the world of work How can HR professionals understand the variety of opportunities AI has created for the HR function and how best to implement these in their organization This book provides the answers From using natural language processing to ensure job adverts are free from bias and gendered language to implementing chatbots to enhance the employee experience artificial intelligence can add value throughout the work of HR professionals Artificial Intelligence for HR demonstrates how to leverage this potential and use AI to improve efficiency and develop a talented and productive workforce Outlining the current technology landscape as well as the latest AI developments this book ensures that HR professionals fully understand what AI is and what it means for HR in practice Alongside coverage of employee engagement and recruitment this second edition features new material on applications of AI for virtual work reskilling and data integrity Packed with practical advice research and new and updated case studies from global organizations including Uber IBM and Unilever the second edition of Artificial Intelligence for HR will equip HR professionals with the knowledge they need to improve people operational efficiencies and allow AI solutions to become enhancements for driving business success      **Feminist Intersectional Therapy** Joanne Jodry, Kathleen

McCleskey, 2025-04-15 An affordable practical comprehensive text for future and current counselors seeking to apply intersectional feminist theory in the therapeutic environment with diverse client populations      **Surveillance Education**

Nolan Higdon, Allison Butler, 2024-08-02 Surveillance Education explores the pervasive use of digital surveillance technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech In doing so the authors draw upon interviews from K 12 and higher education students teachers and staff civil rights and technology lawyers and educational technological programmers The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education      **Artificial Intelligence**

web nov 1 2023 abstract laminated composites are made of continuous fibers and matrix which can provide required engineering properties this paper proposed a hybrid trefftz finite element method for the analysis of conductive heat transfer in cylindrical composite laminates by assuming two independent temperature fields
