A Beginner's Guide to Introduce Artificial Intelligence in Teaching and Learning Muralidhar Kurni, Mujeeb Shaik Mohammed, Srinivasa K G, 2023-06-28 This book reimagines education in today's Artificial Intelligence AI world and the Fourth Industrial Revolution. Artificial intelligence will drastically affect every industry and sector, and education is no exception. This book aims at how AI may impact the teaching and learning process in education. This book is designed to demystify AI for teachers and learners. This book will help improve education and support institutions in the phenomena of the emergence of AI in teaching and learning. This book presents a comprehensive study of how AI improves teaching and learning from AI-based learning platforms to AI-assisted proctored examinations. This book provides educators, learners, and administrators on how AI makes sense in their everyday practice. Describing the application of AI in ten key aspects, this comprehensive volume prepares educational leaders, designers, researchers, and policymakers to effectively rethink the teaching and learning process and environments that students need to thrive. The readers of this book never fall behind the fast pace and promising innovations of today's most advanced learning technology. [AI-Proofing Job Interview Success](#) Etienne Noumen, This ebook outlines a comprehensive strategy for job candidates to succeed in interview processes increasingly influenced by Artificial Intelligence AI. It explains how AI is integrated into recruitment from Applicant Tracking Systems (ATS) screening resumes to AI-powered video interviews and skills assessments. The podcast emphasizes the importance of optimizing application materials for AI using AI ethically for preparation and understanding AI's limitations and potential biases. Ultimately, success requires a dual approach: mastering traditional interview skills while also navigating the technical and analytical aspects introduced by AI systems, alongside highlighting distinctly human qualities that AI cannot easily evaluate.
