All-in On AI Thomas H. Davenport, Nitin Mittal, 2023-01-24 A Wall Street Journal bestseller A Publisher's Weekly bestseller A fascinating look at the trailblazing companies using artificial intelligence to create new competitive advantage from the author of the business classic *Competing on Analytics* and the head of Deloitte's US AI practice Though most organizations are placing modest bets on artificial intelligence there is a world class group of companies that are going all in on the technology and radically transforming their products processes strategies customer relationships and cultures Though these organizations represent less than 1 percent of large companies they are all high performers in their industries They have better business models make better decisions have better relationships with their customers offer better products and services and command higher prices Written by bestselling author Tom Davenport and Deloitte's Nitin Mittal *All In on AI*

looks at artificial intelligence at its cutting edge from the viewpoint of established companies like Anthem Ping An Airbus and Capital One Filled with insights strategies and best practices All In on AI also provides leaders and their teams with the information they need to help their own companies take AI to the next level If you re curious about the next phase in the implementation of artificial intelligence within companies or if you re looking to adopt this powerful technology in a more robust way yourself All In on AI will give you a rare inside look at what the leading adopters are doing while providing you with the tools to put AI at the core of everything you do

Rule of the Robots Martin Ford,2021-09-14 The New York Times bestselling author of Rise of the Robots shows what happens as AI takes over our lives If you have a smartphone you have AI in your pocket AI is impossible to avoid online And it has already changed everything from how doctors diagnose disease to how you interact with friends or read the news But in Rule of the Robots Martin Ford argues that the true revolution is yet to come In this sequel to his prescient New York Times bestseller Rise of the Robots Ford presents us with a striking vision of the very near future He argues that AI is a uniquely powerful technology that is altering every dimension of human life often for the better For example advanced science is being done by machines solving devilish problems in molecular biology that humans could not and AI can help us fight climate change or the next pandemic It also has a capacity for profound harm Deep fakes AI generated audio or video of events that never happened are poised to cause havoc throughout society AI empowers authoritarian regimes like China with unprecedented mechanisms for social control And AI can be deeply biased learning bigoted attitudes from us and perpetuating them In short this is not a technology to simply embrace or let others worry about The machines are coming and they won t stop and each of us needs to know what that means if we are to thrive in the twenty first century And Rule of the Robots is the essential guide to all of it both AI and the future of our economy our politics our lives

The Raging 2020s Alec Ross,2025-09-23 In the face of unprecedented global change New York Times bestselling author Alec Ross proposes a new social contract to restore the balance of power between government citizens and business in The Raging 2020s For 150 years there has been a contract Companies hold the power to shape our daily lives The state holds the power to make them fall in line And the people hold the power to choose their leaders But now this balance has shaken loose As the market consolidates the lines between big business and the halls of Congress have become razor thin Private companies have become as powerful as countries As Walter Isaacson said about Alec Ross s first book The Industries of the Future The future is already hitting us and Ross shows how it can be exciting rather than frightening Through interviews with the world s most influential thinkers and stories of corporate activism and malfeasance government failure and renewal and innovative economic and political models Ross proposes a new social contract one that resets the equilibrium between corporations the governing and the governed
