Generative AI in Higher Education Adebowale Owoseni, Oluwaseun Kolade, Abiodun Egbetokun, 2024-09-18 With the integration of generative artificial intelligence AI teachers and learners now have access to powerful tools to enhance their productivity and effectiveness in their work To meet the demands of this dynamic educational landscape teachers must embrace AI to handle repetitive tasks freeing them to focus on more intelligent and humanistic

responsibilities For learners responsible use of AI could make learning more fun personalized flexible and enriching This insightful new book explores the evolving role of educators in higher education in a world of rapid technological advancements and provides a practical outline of the available technologies By integrating Generative AI into teaching and learning Higher Education Institutions can contribute to achieving inclusive and equitable quality education a target of the UN Sustainable Development Goals and promote lifelong learning opportunities for all Generative AI can be used to enhance teaching and learning experiences foster creativity and develop new learning experiences in higher education This book is a valuable resource for educators navigating the ever changing landscape of education technology With scientific background practical insights and actionable tips this book will be of interest to scholars of emerging technologies and innovation in education It will also be of practical use to instructors seeking to harness the power of generative AI enhancing productivity and transforming their approach to personalized learning

Getting Skills Right Training Supply for the Green and AI Transitions Equipping Workers with the Right Skills

OECD,2024-12-11 Adult learning systems are being called upon to prepare workers for major labour market shifts including the green transition and the rise of artificial intelligence AI in the workplace While initial education is important upskilling and reskilling the existing workforce is essential to help individuals and businesses adapt and prepare for these transitions Policy makers face the challenge of ensuring training is both relevant and inclusive yet there is limited understanding of whether current training supply is sufficient to meet current and future skill needs Most research focuses on the demand for skills with little insight into the supply To fill this gap this report uses evidence from new OECD questionnaires and an analysis of training catalogues to evaluate whether current training supply aligns with the skills needed for the green and AI transitions It also provides insight into the accessibility and flexibility of training efforts to guide policy makers in their efforts to develop more effective inclusive training strategies

Career Services and Workforce Development Centers for Libraries Raymond Pun,Arpine Eloyan,Michael R. Oppenheim,2024-11-18
