A New Idea of India Harsh Madhusudan,2023-05-29 For the better part of seven decades after independence the Nehruvian idea of India held sway in India's polity even if it was not always in consonance with the views of Jawaharlal Nehru himself Three key features constituted the crux of the Nehruvian way socialism which in practice devolved to corruption and stagnation secularism which boxed citizens into group membership and diluted individual identity and non alignment which effectively placed India in the Communist camp In the early Nineties India began a gradual withdrawal from this path But it was only in 2019 with Narendra Modi's second successive win in the general elections that this philosophy is finally being replaced by a worldview that acknowledges India as an ancient civilization even if a young republic and that sees citizens as equal for developmental and other purposes A New Idea of India constructs and expounds on a new framework beyond the rough and tumble of partisan politics Lucid in its laying out of ideas and policies while taking a novel position this book is illuminated by years of research and the authors first hand experiences as citizens entrepreneurs and investors of the vagaries and challenges of India This revised edition builds on some of the arguments of the earlier edition and brings things up to date
