**Generative AI and Education** B. Mairéad Pratschke, 2024-08-27 This volume addresses the gap in knowledge around generative AI and its applications in education It draws on the recent history of technological innovation and digital pedagogies locating generative AI in the contemporary discourse around education futures It argues that a new hybrid model of education is emerging requiring educational institutions to embed generative AI into course and programme design delivery and assessment It also proposes a shift from a focus on learning as output to learning as a process and explores what that shift might look like Grounded in educational theory it offers actionable pedagogy informed guidance on how to position AI as a collaborator in the construction of learning in a manner that is congruent with the values and aims of education It offers advice based on evidence based digital pedagogy including frameworks for effective teaching and learning with generative AI that enable educators and designers to put these ideas into practice The book also explores the wider context informing this shift connecting narratives from governments and industry leaders on the strategic importance of generative AI and lifelong learning learning agility and future skills that make the case for the integration of competency based assessment into mainstream education Finally going beyond pedagogy and practice it considers some of the broader issues including limitations and ethics and the implications of integrating generative AI into institutional planning and design and includes a sample roadmap for education leaders to start the process of integrating generative AI into their institutions This work approaches the topic of generative AI from the vantage point of educators by addressing themes and concerns that will resonate with professionals in the sector

**Artificial Creativity** Alessandra Micalizzi, 2025-07-02 This edited book collects a selection of the best papers submitted for the Artificial Creativity Looking at the Future of Digital Culture meeting held in Milan Italy in June of 2024 The chapters cover the effects of technology on the arts including the narrative visual and auditory This book revisits the notion of what can be considered creative artistic and consequently an expression of our culture It appeals to students and researchers and reveals how the field of creative practice research is constantly shaped by

the emergence of new technologies especially intelligent technologies such as AI and machine learning Collecting Social Media in Museums Craig Middleton, Caroline Wilson-Barnao, 2025-12-08 Collecting Social Media in Museums draws attention to the importance of collecting social media as museum objects and explores the role of rapid response and born digital collecting in documenting social history as it happens Drawing on a range of case studies and facilitated conversations with museum professionals and technology experts the book discusses different approaches to incorporating creator content from social media into museum practice It highlights the need to bridge the gap between traditional museum practices that focus only on material aspects and what the authors argue is increasingly fundamental to human experience and identity formation social media and digital cultural artefacts Providing readers with the critical tools necessary for a rethinking of museum collecting practices in the digital age the book highlights different projects that have navigated ethical legal and copyright concerns for institutions The book culminates with recommendations relating to the implementation of social media collecting strategies ultimately calling for the museum to be more responsive to safeguarding the content that is generated online for future generations Collecting Social Media in Museums provides museum professionals around the world with valuable tools that will empower them to change their practices and respond to social media in real time before it's too late to act Scholars and students engaged in the study of museums media and digital humanities will also find much to interest them within the pages of this book *Willing's press guide* James Willing, 2004 **Towards a Psychophysiological**
