**The Place of Story and the Story of Place** Ernst M. Conradie , Willie J. Jennings ,2023-03-28 This third volume of the series on An Earthed Faith focuses on creation theology The ten invited essays address the following core question What difference does it make to the story of cosmic planetary human and cultural evolution to re describe this as the creative work of God s love Inversely what difference does it make to the story of God s love to describe it in evolutionary and geographic terms Addressing this question requires theological reflection on place land geography and landscape and on evolution cosmic biological hominid and human as the story of such place This entails a narrative reconstruction of the story where current interests positions of power and fears are necessarily at stake the place where the story is being told often dominated by issues of race rather than by grace How then is this story to be told given such a sense of place This volume will entail a highly constructive effort to address the classic tasks associated with creation theology at the cutting edge of contemporary ecotheology
