The Usage of Social Media to Fulfill Social Needs in Introverts Nathaly Rayo,2021 The purpose of this thesis is to examine the relationship between being introverted and the need to affiliate with others Specifically I sought to find out whether social media can be used as a replacement to face to face interactions Previous studies have remained inconclusive on whether social media can be seen as a beneficial tool for individuals who tend to be more introverted In the study multiple measures were utilized to determine the correlation between social media usage and need fulfillment The results indicated that individuals with social anxiety had a propensity towards being more introverted and in having an increased amount of time on TikTok Furthermore these same individuals who show a propensity towards introversion have indicated that they not only need to affiliate with others but that their interactions on TikTok are overall positive and to some extent meaningful Ultimately the data collected offers some insight on the importance of social media as a tool to fulfill social needs in individuals who are introverted and display social anxiety
